Transcontinental Railway: Solid Rock Excavation in Foundations.

Audit Office, Ottawa, July 4, 1907.

Sir,—I beg to call your attention to a new rate and item in the May estimate of M. P. & J. T. Davis' contract.

The item is 'excavation in foundations, rock.' The rate is $4.50 per cu. yd., just three times the rate of solid rock.

As this is practically an additional item to the contract, it would be well to obtain an order in council (if same has not already been procured) recommending this addition.

Please supply this office with the order in council when passed.

I am, sir, your obedient servant,

The Secretary, N. T. Ry. Comm. J. FRASER, *A.G.*

The Commissioners of the N. T. Ry., Ottawa, July 5, 1907.

Sir,—I have the honour to acknowledge the receipt of your letter of the 4th instant *re* item 'excavation in foundations, rock,' in the May estimate of M. P. & J. T. Davis' contract, and to hand you herewith copy of form of tender, contract and specifications, and invite your attention to paragraph 41 of the specifications.

You will note last sentence of paragraph reads: 'Solid rock in such foundations will be paid for at a rate of three times that given in schedule, item No. 4.' This explains the rate to which you call attention.

I am, sir, your obedient servant,

The Auditor General. P. E. RYAN, *Secretary.*

AUDIT OFFICE, OTTAWA, July 9, 1907.

SIR,—I beg to acknowledge receipt of your letter of the 5th instant *re* item 'excavation in foundations, rock,' in the May estimate of M. P. & J. T. Davis' contract.

This item appears in the progress payment of M. P. & J. T. Davis for the 50 miles west of the river sublet from Hogan & Macdonell. This contract is based on the old specifications instead of the new; and you will find by referring to paragraph 41 of the former that the price of $4.50 is not embodied therein.

It is therefore, I think, an additional item to the contract; and it would be preferable to obtain an order in council recommending this addition.

I am, sir, your obedient servant,

The Secretary, N. T. Ry. Comm. J. FRASER, *A.G.*

THE COMMISSIONERS OF THE N. T. RY., OTTAWA, August 6, 1907.

SIR,—Replying to your favour of the 9th ultimo *re* 'excavation in foundations, rock,' I have the honour to hand you herewith copy of a letter from our chief engineer, and copy of the letter referred to by the chief engineer, which speak for themselves.

From a perusal of Mr. Lumsden's letter, you will note that the work was ordered to be performed under clause 11 of the contract.

I am, sir, your obedient servant,

The Auditor General. P. E. RYAN, *Secretary.*

OTTAWA, August 6, 1907.

SIR,—In reply to yours of July 23, inclosing copy of a letter from the Auditor General, dated July 9, in regard to 'excavation in foundations, rock,' I may say that at my suggestion, Mr. Hoare, the engineer in charge, made a verbal agreement with Messrs. Davis under clause 11 of the contract, for this work at a similar rate as under contracts subsequently let, viz., three times the price of ordinary rock excavation (clause 41).

This I have now had confirmed by a letter from the contractors, copy attached.

I am, sir, your obedient servant,

P. E. Ryan, Esq., Secretary. HUGH D. LUMSDEN, *Chief Eng.*

QUEBEC, May 15, 1907.

SIR,—We have to acknowledge receipt of yours of the 13th instant, in reference to rock excavation in foundations, and proposing a price of $4.50 per cubic yard for same. We now beg to state that we accept the price of $4.50 per cubic yard offered by you.

I am, sir, your obedient servant,

E. A. Hoare, Esq., Eng., N.T.Ry., Que. M. P. & J. T. DAVIS.

AUDIT OFFICE, OTTAWA, July 30, 1908.

Paragraph 41, General Specifications.

SIR,—In the general specifications of the contracts of J. D. McArthur, district 'F,' and Hogan & Macdonell, district 'B' (sublet to M. P. & J. T. Davis and Macdonell & O'Brien), paragraph 41 provides that 'excavation for foundation-pits, including those excavated under water, but not requiring caissons, coffer-dams or other special appliances, shall be paid for at the schedule price per cubic yard excavated, such excavation to be kept dry, and the schedule price shall include the necessary bailing or pumping.'

In the amended general specifications, as used in all of the subsequent contracts, this paragraph 41 contains the following additional provision: 'Solid rock in such foundations will be paid for at a rate of three times that given in schedule, item 4.'

In Mr. Lumsden's letter to you, dated 27th instant, he states that, in justice to the contractors (above mentioned), he is allowing the same rate to prevail as in the subsequent contracts in which the specifications were amended. Would not this action by the chief engineer constitute a variation of the contract as approved by order in council and the G. T. P. Ry. Co.? And would it not, therefore, require the authority of the Governor in Council and sanction of the G. T. P. Ry. authorities before it could become legally effective?

I am, sir, your obedient servant,

The Secretary, N.T.Ry. Comm. FREDERICK HAYTER, *for A.G.*

CHIEF ENGINEER'S OFFICE, OTTAWA, July 31, 1908.

DEAR SIRS,—As in order to satisfy the Auditor General, it is necessary that I should have your approval in writing to my having arranged that the price to be paid you for solid rock excavation where met with in foundations (clause 41 of the general specifications) shall be three times the price given in your schedule of prices, item 4, that is, in your case $4.50 per cubic yard. You will please write me agreeing to such at once, all other material under this heading being as per your prices, item 7.

I am, sir, your obedient servant,

HUGH D. LUMSDEN, *Chief. Eng.*

Messrs. Macdonell & O'Brien, Contractors, Hervey Jct., P.Q.

HERVEY JCT., QUE., August 6, 1908.

SIR,—We are in receipt of yours of July 31, *re* solid rock in foundations, and in reply we beg to say we accept the price mentioned, viz.: $4.50 per cubic yard.

I am, sir, your obedient servant,

MACDONELL & O'BRIEN.

H. D. Lumsden, Esq., Ch. Eng., N.T.Ry. (Sgd.) per H. DOHERTY.

AUDIT OFFICE, OTTAWA, October 17, 1908.

SIR,—Let me call your attention to our letter of July 30 last, regarding the interpretation of paragraph 41 of the general specifications as used in the McArthur and Hogan & Macdonell contracts.

No answer appears to have been received to the letter in question.

I am, sir, your obedient servant,

The Secretary, N.T.Ry. Comm. FREDERICK HAYTER, *for A.G.*

THE COMMISSIONERS OF THE N. T. RY., OTTAWA, November 20, 1908.

SIR,—In reply to your letters of July 30 and October 17 last, with respect to payments to contractors J. D. McArthur, M. P. & J. T. Davis, and Macdonell & O'Brien, for excavations in foundations: I have the honour to hand you herewith a copy of a letter from our law clerk, dated the 20th instant, which speaks for itself.

I am, sir, your obedient servant,

The Auditor General. P. E. RYAN, *Secretary.*

OTTAWA, November 20, 1908.

SIR,—In regard to letter of 17th ultimo from Mr. Hayter of the Auditor General's Office, and attached correspondence, I beg to report:

That the chief engineer on finding that the price for excavating solid rock in foundations was not provided for in the contracts mentioned in Mr. Hayter's letter considered that under the powers given him by sections 11 and 35 of said contracts, he had the authority to have the work performed and fix the price by agreement with the contractors, at the same rate as in subsequent contracts where paragraph 41 of the specifications was amended.

The powers of the chief engineer are, I should think, broad enough to admit of this being done without the authority of the Governor in Council and the Grand Trunk Pacific Railway Company.

I am, sir, your obedient servant,

The Commrs., N. T. Ry. H. ATKINSON, *Law Clerk.*

AUDIT OFFICE, OTTAWA, December 9, 1908.

SIR,—In the general specifications of the contract with Hogan & Macdonell on district 'B' of the Transcontinental Railway, paragraph 41 provides that 'excavation for foundation-pits, including those excavated under water, but not requiring caissons, coffer-dams or other special appliances, shall be paid for at the schedule price per cubic yard excavated, such excavation to be kept dry and the schedule price shall include the necessary bailing or pumping.'

The rate to be paid comes under items 7 and 8 in the schedule: 'No. 7, excavation in foundations, no coffer-dams, cubic yard $1, No. 8, excavation of foundation, within coffer-dams $1.75 cubic yard.' (See page 22 of specifications.)

In amended specifications for *subsequent* contracts, paragraph 41 contains the following additional provision: 'Solid rock in such foundations will be paid for at a rate of three times that given in schedule, item 4.' Item 4 reads: 'Solid rock, cubic yard $1.50.' Three times this rate would be $4.50 per cubic yard.

The law clerk of the Transcontinental Railway has given his opinion that the chief engineer has power given him by sections 11 and 35 of the contract, to fix the price by agreement with the contractor at the same rate as in subsequent contracts where paragraph 41 of the earlier specification was amended. I contend that he has not the power under those sections to depart from the specifications under which the contract was entered into.

I inclose herewith copies of the correspondence with the National Transcontinental Commission, and have to request that you advise me as to whether or not the chief engineer has the power to make this alteration in the contract.

I am, sir, your obedient servant,

The Deputy Minister of Justice. J. FRASER, *A.G.*

1—31w

DEPARTMENT OF JUSTICE, OTTAWA, December 30, 1908.

SIR,—I have the honour to acknowledge receipt of your letter of the 9th instant, in which you state the following case for the opinion of this department:—

In the general specifications of the contract with Hogan & Macdonell on district 'B' of the Transcontinental Railway, paragraph 41 provides that 'excavation for foundation pits, including those excavated under water, but not requiring caissons, coffer-dams or other special appliances, shall be paid for at the schedule price per cubic yard excavated, such excavation to be kept dry, and the schedule price shall include the necessary bailing or pumping.'

The rate to be paid comes under items 7 and 8 in the schedule, 'No. 7, excavation in foundations, no coffer-dams, cubic yard $1, No. 8, excavation of foundation, within coffer-dams, $1.75 cubic yard.' (See page 22 of specifications.)

In amended specifications for *subsequent* contracts, paragraph 41 contains the following additional provision: 'Solid rock in such foundations will be paid for at a rate of three times that given in schedule, item 4. Item 4 reads: 'Solid rock, cubic yard $1.50.' Three times this rate would be $4.50 per cubic yard.

The law clerk of the Transcontinental Railway has given his opinion that the chief engineer has power given him by sections 11 and 35 of the contract, to fix the price by agreement with the contractor at the same rate as in subsequent contracts where paragraph 41 of the earlier specification was amended. I contend that he has not the power under those sections to depart from the specifications under which the contract was entered into.'

You inclose copies of the correspondence with the National Transcontinental Commission, and ask for advice as to whether or not the chief engineer has the power to make this alteration in the contract.

I understand that the work in question is part of that contracted for, that it is not extra work in the sense of clause 11 of the contract, or work done under written order of the engineer, not covered by the agreement within the meaning of clause 35. It is work which the contractors are bound to do without any special order from the engineer, and the only circumstance distinguishing it for present purposes is that there is no special price fixed for it, as in the case of similar work done under subsequent contracts upon the amended specifications there was, items 7 and 8 in the schedule, however, covering excavation of and in foundations generally, being clearly wide enough to cover this work.

Upon your statement, and if my understanding of the facts is correct, I beg to state that I am of opinion that the engineer has no power under clause 11 or clause 35 of the contract, to fix the price for this work by agreement with the contractor at the same rate as in subsequent contracts upon the amended specifications.

I return copy of the Hogan & Macdonell contract, and copy assignment to the Messrs. Davis.

I am, sir, your obedient servant,

The Auditor General. E. L. NEWCOMBE, *D.M. J.*

AUDIT OFFICE, OTTAWA, January 5, 1909.

SIR,—*Re* payments to M. P. & J. T. Davis and Macdonell & O'Brien on the Hogan & Macdonell contract for 'excavation of foundations, solid rock,' at three times the schedule rate for solid rock, item 4:

I have to acknowledge receipt of your letter of November 20 last, inclosing a letter of the same date from your law clerk, in which he gives the opinion that the chief engineer has power, under sections 11 and 35 of the contract, to fix the above special rate.

I am unable to agree with this opinion, and I contend that items 7 and 8 of the schedule covering excavation of and in foundations generally, are clearly wide enough to cover this work. I have, therefore, to request that the quantities paid for to the above-mentioned firms at the rate of three times item 4 be re-classified under items 7 and 8 in the December progress estimates.

I shall be glad to be favoured with an early reply and before any further payments have been made, as to your concurrence or otherwise, with me in this matter.

I am, sir, your obedient servant,

The Secretary, N. T. Ry. Comm. J. FRASER, *A.G.*

Audit Office, Ottawa, January 25, 1909.

Sir,—I have not received a reply to my letter of January 5, *re* payments to M. P. & J. T. Davis and Macdonell & O'Brien on the Hogan & Macdonell contract for 'excavation of foundations, solid rock,' at three times the schedule rate for solid rock, item 4.

I shall be glad to receive a reply as soon as possible.

I am, sir, your obedient servant,

The Secretary, N. T. Ry. Comm. J. FRASER, *A.G.*

The Commissioners of the N. T. Ry., Ottawa, February 10, 1909.

Sir,—I have the honour to acknowledge the receipt of your letter of the 5th ultimo in further reference to payments to contractors for excavation of foundations, solid rock; also your letters of the 25th ultimo and 8th instant, calling for a reply to your letter of the 5th ultimo.

You first called attention to these payments by your letter of July 4, 1907, and under date of August 6, 1907, you were furnished a copy of a letter from our chief engineer advising that the price had been fixed by agreement with the contractor, under clause 11 of the contract, at three times the price of ordinary rock excavation, being the price fixed by the amended specifications for construction. This explanation was evidently satisfactory to you at the time, as nothing further was heard from you on this point until July 30, 1908, when you asked if the action of our chief engineer in fixing the price as stated did not constitute a variation of the contract, and if it would not, therefore, require the authority of the Governor in Council and the sanction of the G. T. P. R. authorities before it could become legally effective.

Under date of November 20, 1908, a copy of an opinion of our law clerk was furnished you that the action of the chief engineer was within his powers under the contract and specifications.

As to the point you have raised that the price fixed for the work by the engineer at the same rate as that provided by the amended specifications should be approved by the Governor in Council and the G. T. P. Company, I have the honour to remind you that the amended specifications for the eastern division fixing this rate have been approved and adopted by resolution of the Board of Directors of the G. T. P. Company, dated February 7, 1907, and by order in council, dated January 14, 1907, 'in lieu of, and in substitution for the specifications approved by the directors August 3, 1905,' (this is the language of the resolution of the directors of the company), and (in the language of the order in council) 'in substitution for those already approved.'

It is perfectly obvious that the amended general specifications were substituted for the original specifications, and superseded them on the eastern division, as it is

equally obvious that two sets of specifications cannot be said to be in existence when the amended specifications were substituted for the original specifications.

Trusting that the matter is now perfectly clear to you,

I am, sir, your obedient servant,

The Auditor General. P. E. RYAN, *Secretary.*

AUDIT OFFICE, OTTAWA, February 22, 1909.

SIR,—By order in council of May 31, 1907, general specifications for the construction of the eastern division of the Grand Trunk Pacific Railway were approved, as required by section 7 of the schedule of agreement annexed to 3 Edward VII, chapter 71.

Under these general specifications tenders were called for and a contract entered into with M. P. & J. T. Davis and Macdonell & O'Brien.

In the general specifications, paragraph 41 provides that 'excavation for foundation pits, including those excavated under water, but not requiring caissons, coffer-dams or other special appliances, shall be paid for at the schedule price per cubic yard excavated, such excavation to be kept dry, and the schedule price shall include the necessary bailing or pumping.'

Item 4 in the schedule forming part of the specification reads: 'solid rock, cubic yard, $1.50.'

Item 7 reads: 'excavation in foundations, no coffer-dams, cubic yard $1.'

Item 8 reads: 'excavation of foundations, within coffer-dams, cubic yard $1.75.' (Page 22 of specifications.)

This contract was approved by the Governor in Council, and the work was proceeded with. On January 14, 1907, revised specifications were approved by order in council, in which paragraph 41 above quoted was amended by the addition of the following words: 'Solid rock in such foundations will be paid for at a rate of three times that given in schedule, item 4.'

The Transcontinental Railway Commission then proceeded to pay the contractors for solid rock found in foundation under item 'excavation for foundations,' at the rate of $4.50 per cubic yard, or three times item 4. Objection was taken to this rate in my letter of July 30, 1908, when the commission forwarded me a letter from Mr. Lumsden, the chief engineer, in which he stated 'that in justice to the contractors he is allowing the same rate to prevail as in the subsequent contracts in which the specifications were amended.'

On November 20, Mr. Atkinson, the law clerk of the commission, gives the following opinion: 'That the chief engineer, on finding that the price for excavating solid rock in foundations was not provided for in the contracts mentioned in Mr. Hayter's letter, considered that under the powers given him by sections 11 and 35 of said contracts, he had the authority to have the work performed and fix the price by agreement with the contractors, at the same rate as in subsequent contracts where paragraph 41 of the specifications was amended.

'The powers of the chief engineer are, I should think, broad enough to admit of this being done without the authority of the Governor in Council and the Grand Trunk Pacific Railway Company.'

On February 10, 1909, I received a letter from the commissioners stating that 'it is perfectly obvious that the amended general specifications were substituted for the original specifications, and superseded them on the eastern division, as it is equally obvious that two sets of specifications cannot be said to be in existence when the amended specifications were substituted for the original specifications.'

I contend that the sections 11 and 35 do not apply as they are intended for an entirely different purpose.

I also contend that the revised specifications do not apply to contracts which were entered into on the original specifications, and that specifications which were prepared after the contract was let cannot supersede the original specifications, and that the contractors are not entitled to be paid for 'excavation in foundations' (even if solid rock is found) at three times the rate given in item 4.

I have, therefore, asked the commissioners to deduct from the contractors the amount overpaid, but they have not acceded to my request.

I have, therefore, to request that the Treasury Board shall determine whether the contractors are entitled to the increased rate allowed under the revised specifications or whether the rate provided in the original specifications should prevail.

In the meantime the commissioners should be instructed to refrain from making any further payments at the increased rate until the point at issue is determined.

This action is taken under section 60 of the Consolidated Revenue and Audit Act.

I inclose copies of the correspondence.

I am, sir, your obedient servant,

Secretary, Treasury Board. J. FRASER, *A.G.*

FINANCE DEPARTMENT, OTTAWA, April 23, 1909.

SIR,—Referring to your letter of February 22, 1909, regarding the contract entered into with Messrs. M. P. & J. T. Davis and Messrs. Macdonell & O'Brien in connection with the construction of the eastern division of the Grand Trunk Pacific Railway, I have the honour to inclose herewith a copy of an extract from the minutes of a meeting of the Honourable the Treasury Board, held at Ottawa, on April 5, 1909.

I beg to call your attention to the concluding paragraph of the said extract.

I am, sir, your obedient servant,

The Auditor General. T. C. BOVILLE, *Secy., Treasury Board.*

EXTRACT *from the Minutes of a Meeting of the Honourable the Treasury Board, held at Ottawa, on the Fifth day of April, 1909.*

TREASURY BOARD.

The Board had under consideration a communication from the Auditor General in reference to item 4 in the schedule forming part of the specifications approved by order in council of May 31, 1905, for the construction of the eastern division of the Grand Trunk Pacific Railway, under which specifications tenders were called for and a contract entered into with Messrs. M. P. & J. T. Davis and Messrs. Macdonell & O'Brien.

In these specifications, paragraph 41 provides that 'excavation for foundation pits, including those excavated under water, but not requiring caissons, coffer-dams or other special appliances, shall be paid for at the schedule price per cubic yard excavated, such excavation to be kept dry, and the schedule price shall include the necessary bailing or pumping.'

Item 4, above referred to, reads 'solid rock, cubic yard, $1.50.'

This contract was approved by the Governor in Council and the work was proceeded with.

On January 14, 1907, revised specifications were approved by order in council, in which paragraph 41, above quoted, was amended by the addition of the following

words: 'Solid rock in such foundation will be paid for at a rate of three times that given in schedule, item 4,' or $4.50 per cubic yard.

Objection has been taken by the Auditor General to the payment of the contractors at $4.50 per cubic yard, instead of at the rate of $1.50, as per said item 4, and he requests that the Transcontinental Railway Commission should be instructed to refrain from making any further payments at the increased rate until the point at issue is determined.

The Board direct that instructions be given to the said commission that no further payments at the increased rate under item 4 of the schedule above referred to, be made until the objection of the Auditor General has been finally dealt with by the Board.

T. C. BOVILLE, *Secretary.*

AUDIT OFFICE, OTTAWA, August 4, 1909.

SIR,—The progress estimates for the Transcontinental Railway which we receive monthly and on which payments are made out of your letter of credit, show under the various items included in the schedule of specifications the number of cubic yards of excavation, filling, &c.

I should like to be informed if these are the actual quantities, or are there any instances in which the quantities are increased or the classification altered so as to enable the contractor to obtain what would amount to a higher rate than that shown in the specifications.

I am, sir, your obedient servant,

The Secretary, N. T. Ry. Comm. J. FRASER, *A.G.*

AUDIT OFFICE, OTTAWA, September 3, 1909.

SIR,—On August 4th last I wrote you asking if the quantities and classification shown in the progress estimates for Transcontinental Railway contracts which we receive monthly were the actual quantities, or if there were any instances in which the quantities were increased or the classification altered so as to enable the contractor to obtain what would amount to a higher rate than that shown in the specification.

I have not yet received a reply to this letter, and should like to be favoured with one at an early date.

I am, sir, your obedient servant,

The Secretary, N. T. Ry. Comm. J. FRASER, *A.G.*

THE COMMISSIONERS OF THE N. T. RY., OTTAWA, September 7, 1909.

SIR,—Your letter of the 3rd instant, with respect to quantities and classification shown in progress estimates was duly received and submitted to the Board, when I was directed to send to you, which I do herewith, a copy of a resolution adopted by the commissioners, and relating to your letter of August 4.

I am, sir, your obedient servant,

The Auditor General. P. E. RYAN, *Secretary.*

Extract from Minutes of a Meeting held by the Commissioners of the Transcontinental Railway at Ottawa, August 5, 1909, Hon. S. N. Parent in the Chair.

A letter from the Auditor General, dated the 4th instant, relating to progress estimates of contractors, and the number of cubic yards of excavation, filling, &c., shown thereon, and requesting to be informed if these are the actual quantities, or are there any instances in which the quantities were increased or the classification altered so as to enable the contractor to obtain a higher rate than that shown in the specifications, was read; and

Whereas the estimates referred to have been since the commencement of the work subject to the audit of the Auditor General's Department, and the accounts and other records of the chief engineer have been open to inspection and audit by the officers of the Auditor General's Department, and the opportunity for such inspection and audit has been constantly and consistently availed of by said officers; and

Whereas the quantities referred to and shown on the said progress estimates constitute the basis of the monthly payments to contractors, and speak for themselves, and if the commissioners had any knowledge that they were not the actual quantities, and notwithstanding such knowledge the commissioners passed such estimates for payment, they would be parties to a fraud;

Resolved, that in the opinion of the commissioners, the inquiry of the Auditor General, in the form in which it has been made contains a direct reflection on the personal integrity of the commissioners, inasmuch as it implies the possibility that the commissioners might knowingly and wilfully approve the payment of false estimates; and that, under the circumstances, the inquiry of the Auditor General is considered improper and offensive, and should not now be answered.

Certified correct.

P. E. RYAN, *Secretary.*

THE COMMISSIONERS OF THE N. T. RY., OTTAWA, September 8, 1909.

SIR,—In further reference to the agreements entered into by our late chief engineer with the contractors for the construction of the 150-mile section of our road from the Quebec bridge westerly, and of the 245-mile section from Winnipeg easterly, with respect to excavations in foundations, solid rock: I have the honour, by direction of the Board, to hand you herewith a copy of a letter which has been to-day addressed to our chief engineer, and which speaks for itself.

I am, sir, your obedient servant,

The Auditor General. P. E. RYAN, *Secretary.*

OTTAWA, September 8, 1909.

SIR,—Referring to the letter of your predecessor to the commissioners, dated May 5 last, the chief engineer's file No. 8394, *re* agreements made by Mr. Lumsden with the contractors for the 150-mile section from the Quebec bridge westerly, and the 245-mile section from Winnipeg easterly, for payment for excavation in foundations, solid rock, at three times the price for solid rock, item No. 4, in the schedule of prices forming part of those contracts: the Justice Department advise that the chief engineer had not the legal authority to make the agreements referred to, and that items Nos. 7 and 8 in the schedule of prices forming part of the contracts referred to covering excavations of and in foundations generally are clearly wide enough to cover the work.

The commissioners accordingly direct that you will have the estimates of the contractors, viz.: Messrs. M. P. & J. T. Davis, Macdonell & O'Brien, and J. D.

McArthur corrected accordingly, and no further payments made under the said agreements.

I am, sir, your obedient servant,

Gordon Grant, Esq., Chief Engineer. P. E. RYAN, *Secretary.*

AUDIT OFFICE, OTTAWA, September 25, 1909.

SIR,—I have to acknowledge receipt of your letter of 7th instant, inclosing an extract from the Minutes of the Board of Commissioners of the Transcontinental Railway, at which it was resolved that, 'in the opinion of the commissioners, the inquiry of the Auditor General, in the form in which it has been made, contains a direct reflection on the personal integrity of the commissioners, inasmuch as it implies the possibility that the commissioners might knowingly and wilfully approve the payment of false estimates; and that, under the circumstances, the inquiry of the Auditor General is considered improper and offensive, and should not now be answered.'

After carefully reading my letter of August 4, I cannot see that I suggested, or even insinuated, that the commissioners had knowingly and wilfully approved the payment of false estimates. I was of the opinion that the commissioners could not be cognizant of all the details of the operations of their subordinates and were obliged to accept the certificates of their engineers that the quantities of work returned as having been performed were correct, and while technically responsible for the actions of their officials they could not be held morally responsible unless they had instructed the engineers to enter excessive quantities in their progress estimates. I have never suggested or even insinuated that this had been done, and assumed, when I asked such a question as that contained in my letter of August 4, that the commissioners would have referred my inquiry to the chief engineer for information on the subject, as it must have been within the knowledge of the commissioners that occasionally I have had to question the correctness of the progress estimates, and in some instances modifications have had to be made in these estimates and lesser amounts paid to contractors than those certified to as being correctly due.

In the present instance I think that it would have been better if the engineers had been consulted instead of resolving that my letter should not be answered. A resolution of the character adopted, no matter how lofty its tone, does not settle the matter. I had reason to suppose that increased quantities had been allowed for the same purpose that increased prices had been allowed for rock excavation in foundations. I took exception to the increased prices, notwithstanding the fact that the chief engineer maintained that he had a right to allow the rate mentioned in the amended specifications and was supported in his contention by the law clerk of the commission. The chief engineer was sustained in his action by the commission, as the correspondence shows, until the Department of Justice decided that my contention was correct, that the increased price allowed by the commission was illegal. It was only after receiving this opinion of the Department of Justice that the commission instructed the chief engineer to have the progress estimates corrected.

In view of the action of the commission in this matter, I think I was justified in asking the questions contained in my letter of August 4, and notwithstanding the resolution of the commission, I have to insist that the letter be answered. If it will assist the commission in answering the letter, I might say that three times the quantity of solid rock in foundations had been allowed in one division, and that this excessive quantity had been entered in the progress estimates and the contractor paid for the same. These estimates were certified to, but I have no knowledge that it was done with the consent of or by the instructions of the commission. I have to request

that the commission will ascertain by whose instructions it was done, and inform me at their earliest convenience.

I am, sir, your obedient servant,

The Secretary, N. T. Ry. Comm. J. FRASER, *A.G.*

THE COMMISSIONERS OF THE N. T. RY., OTTAWA, September 28, 1909.

SIR,—I duly received and submitted to the Board your letter of the 25th instant, in further reference to your inquiry of August 4, when I was directed to reply to you as follows:—

Our contracts for construction, with which you are familiar, all provide as follows:

'Cash payments equal to about 90 per cent of the value of the work done approximately, made up from returns of progress measurements and computed at the prices agreed upon or determined under the provisions of this agreement, will be made to the contractor monthly on the written certificate of the engineer that the work for or on account of which the certificate is granted has been duly executed to his satisfaction, and stating the value of such work computed as mentioned, and upon approval of such certificate by the commissioners.'

To increase the quantities or to alter the classification 'so as to enable the contractor to obtain a higher rate than that shown in the specifications' would be to commit a fraud. In your letter of August 4 you ask the commissioners if this is done. The commissioners appeal to your sense of fairness and courtesy, and ask if you consider this a proper inquiry?

In declining to answer your letter of August 4 at that time the commissioners hoped that you would reconsider the matter and put your inquiry in a different form. They are glad to note you did not intend to be offensive. This is made clear by the first part of the second paragraph of your letter of the 25th instant, though the balance of it is but little improved in tenor over your communication of August 4. For instance, you say: 'I had reason to suppose that increased quantities had been allowed for the same reason that increased prices had been allowed for rock excavations in foundations.' It is presumed that this refers to the agreements made by the late chief engineer of the commissioners, Mr. Hugh D. Lumsden, under the first contracts awarded, to pay contractors for rock excavations in foundations at the same rate as that provided in the amended specifications, viz.: three times the solid rock price. Mr. Lumsden made this agreement under clauses 11 and 35 of the contracts, believing that he had the power to do so, and it is assumed that you do not charge that he acted in other than good faith. The commissioners submitted the matter to the Justice Department and, as soon as the deputy minister advised that in his opinion the engineer had not the legal authority to enter into such an agreement with the contractors, the necessary correction was ordered by the commissioners. Indeed this correction would have been made at a much earlier date had you thought it proper to communicate to the commissioners the opinion in this regard furnished you by the Justice Department in December, 1908.

The contractors' estimates and all the accounts and other records of the commission have been open to the inspection and audit of your officers since the commencement of the work, and the opportunity for such inspection and audit has been constantly and consistently availed of by them. The commissioners endeavour to supervise all matters of detail as much as possible, but they have felt a particular sense of security from the knowledge that your officers were giving all such matters so close an attention. They appreciate your efforts and welcome your criticism, but believe that much needless discussion and correspondence could be avoided and time

saved if your officers would bring to the attention of the chief engineer any matters which they think may require correction or amendment, as was agreed some time ago between yourself and our chairman. And there is no possible reason why they should not act in perfect harmony.

Now, in reply to your inquiry, I am directed to say that the chief engineer of the commissioners, Mr. Gordon Grant, since his appointment as chief engineer has been over the whole of the McArthur contract (245 miles) in district 'F'; and the Grand Trunk Pacific Railway contract (45 miles), the Macdonell & O'Brien contract (100 miles), and the Davis' contract (50 miles) in district 'B'; and he reports that there has been absolutely no fraud on any of this work. As inspecting engineer he has been over practically the entire work under contract between Winnipeg and Moncton, and he reports that he has no knowledge of any fraud on any part of the work, though some re-adjustments may have to be made to meet his views.

With respect to your statement that three times the quantity of solid rock in foundations had been allowed on one division, and that this excessive quantity had been entered in the progress estimates and the contractor paid for the same, I inclose a copy of a letter written by the undersigned, by the direction of the commissioners to the chief engineer, and a copy of the chief engineer's reply. You will note that Mr. Grant states that he knows of no instance of a contractor having been paid three times what he was entitled to receive under the specifications. If you have any knowledge of any such case of over-payment of a contractor as that suggested in your letter, the commissioners conceive it to be your duty to at once apprise them of it, when the parties responsible will be summarily dealt with.

I am, sir, your obedient servant,

The Auditor General. P. E. RYAN, *Secretary.*

OTTAWA, September 27, 1909

SIR,—The following is an extract from a letter from the Auditor General, dated the 25th instant:—

'I might say that three times the quantity of solid rock in foundations had been allowed in one division, and that this excessive quantity had been entered in the progress estimates and the contractor paid for the same. These estimates were certified to, but I have no knowledge that it was done with the consent of or by the instructions of the commission. I have to request that the commission will ascertain by whose instructions it was done and inform me at their earliest convenience.'

The commissioners have never heard of such an occurrence, and wish you to say if such a thing has ever occurred on our work.

From the text of the Auditor General's letter, it is understood that this means that the contractor was paid three times what he was entitled to receive under the specifications for this work. If this is the case, the engineer responsible should be at once discharged; if it is not the case, the commissioners would like to know if you can suggest any possible basis for this statement of the Auditor General.

I am, sir, your obedient servant,

Gordon Grant, Esq., Chief Engineer. P. E. RYAN, *Secretary.*

OTTAWA, September 28, 1909.

SIR,—In reply to the letter of the secretary, dated the 27th instant, quoting an extract from a letter of the Auditor General, dated the 25th instant, to the effect that three times the quantity of solid rock in foundations had been allowed in one division,

and that this excessive quantity had been returned in progress estimates and the contractors paid for the same:

I know of no case in which any of our contractors has been paid three times what he was entitled to receive under the general specifications for construction. The only possible basis for the statement of the Auditor General that I can suggest is that since I assumed my present position, I have had brought to my notice a case wherein the engineer evidently misunderstood the instructions issued by my predecessor with respect to allowance for excavation in foundations of solid rock, trebling the quantity, at solid rock prices, instead of trebling the solid rock price and returning the actual quantity as provided under the agreement made by my predecessor under the two first contracts awarded. This was immediately rectified. Of course, the contractors did not receive through error of the engineer more than they were entitled to under the said arrangement, as payment would amount to the same figure under either method of calculation. The method of calculation employed by the engineer, however, was not correct, and, as already stated, the return was immediately rectified.

I am, sir, your obedient servant,

Commissioners of the N. T. Ry. GORDON GRANT, *Chief Engineer.*

AUDIT OFFICE, OTTAWA, October 4, 1909.

SIR,—I have to acknowledge receipt of your letter of 28th ult., inclosing a report of your chief engineer, Mr. Gordon Grant, in reference to increased quantities over and above the actual quantities of work performed.

In this report Mr. Grant says: 'I know of no case in which any of our contractors has been paid three times what he was entitled to receive under the general specifications for construction. The only possible basis for the statement of the Auditor General that I can suggest is that since I assumed my present position, I have had brought to my notice a case wherein the engineer evidently misunderstood the instructions issued by my predecessor with respect to allowance for excavation in foundations of solid rock, trebling the quantity, at solid rock prices, instead of trebling the solid rock price and returning the actual quantity, as provided under the agreement made by my predecessor under the two first contracts awarded. This was immediately rectified.' It appears to me that this might have been your answer to my letter.

He then proceeds to say: 'Of course, the contractors did not receive through the error of the engineer more than they were entitled to under the said arrangement.'

Mr. Grant admits that he found in one instance that the engineer, through a misunderstanding of instructions, had trebled the quantity of solid rock excavated.

Surely this was enabling the contractor to obtain a higher rate than that allowed by the specifications. It is true that Mr. Grant states that this has since been rectified, but in the meantime the contractor had received more than he was entitled to.

You say that to increase the quantities or to alter the classification 'so as to enable the contractor to obtain a higher rate than that shown in the specifications,' would be to commit a fraud. That is your statement, not mine. I only asked if this had been done, and supposed at the time that you would have asked your chief engineer. Had you done so, instead of passing a resolution not to answer my letter, all this unpleasantness might have been avoided.

You state that the commissioners appeal to my sense of fairness and courtesy, and ask if I consider this a proper inquiry. Where is the unfairness or want of courtesy? What should I ask, or in what terms should my inquiry have been made?

In view of the correspondence in connection with allowing 'three times the price for rock in foundations,' surely I was justified in asking if increased quantities had been allowed for the same purpose.

In the former case no offence was taken by the commissioners, or want of courtesy complained of. Why should there be on the second inquiry?

I did not complain of want of courtesy when the commissioners resolved not to answer my letter of August 4. I contend it was a fair inquiry on a subject of vital importance in connection with the audit of your accounts, and one that for obvious reasons, should have been answered.

You state that the commissioners have felt a particular sense of security from the knowledge that our officers were giving all such matters so close an attention.

I appreciate the compliment; but as we are only able to test the mathematical accuracy of the statements sent to us, the security is more fancied than real, unless we can rely absolutely on the certificates of the engineers that the quantities are correct.

If we have reason to suppose that through errors of judgment or a misunderstanding of instructions the quantities or classification are not correct, we must be allowed to ask questions which may appear on the surface to be harsh or unreasonable, but which are really intended to remove doubts or secure correctness.

I am, sir, your obedient servant,

The Secretary, N. T. Ry. Comm. J. FRASER, *A.G.*

THE COMMISSIONERS OF THE N. T. RY., OTTAWA, October 7, 1909.

SIR,—By direction of the Board I have the honour to acknowledge the receipt of your letter of the 4th instant, and to say that there are just two points in your letter which seem to call for reply, and these can be best answered categorically, as follows, viz.:—

(1) 'Surely this was allowing the contractor to obtain a higher rate than that shown by the specifications. It is true that Mr. Grant states that this has since been rectified, *but in the meantime the contractor had received more than he was entitled to.*'

Answer: Mr. Grant stated that since he assumed his position of chief engineer the matter was brought to his attention, when it was *immediately* rectified. The contractor *did not 'in the meantime' receive one cent more than he was entitled to under the agreement.* This you well know.

(2) 'You say that to increase the quantities or to alter the classification "so as to enable the contractor to obtain a higher rate than that shown in the specifications would be to commit a fraud." That is your statement, not mine.'

Answer: There is no desire to modify this statement; and you have not cited any case *where the quantities were increased or the classification altered so as to enable the contractor to receive a larger payment than he was entitled to under the specifications.*

The object of the commissioners in answering these assertions categorically is to ensure a fair and proper statement of the case, and a correct understanding of it.

It is difficult, moreover, to withhold a word of admiration for the verbal adroitness which characterizes your letter.

I am, sir, your obedient servant,

The Auditor General. P. E. RYAN, *Secretary.*

Transcontinental Railway: Transfer of Contract.

AUDIT OFFICE, OTTAWA, December 29, 1908.

SIR,—Your favour of the 19th instant is received, inclosing a certified copy of an assignment, dated October 1, 1908, of two contracts for construction, dated September 19, 1908, from Michael J. O'Brien, Samuel McDougall and Alexander McDougall to the firm of O'Brien, Fowler & McDougall Bros.

Would it not be well to have the consent of the commissioners attached to this agreement? (See section 9 of the said contracts.) Otherwise it is not shown that the commissioners have agreed to the assignment. And as the original tender approved by the Governor in Council contains the names of the first above-mentioned parties only, would it not be advisable to have this approval extended to the assignment to the new firm?

I am, sir, your obedient servant,

The Secretary, N.T.Ry. Comm. FREDERICK HAYTER, *for A.G.*

THE COMMISSIONERS OF THE N. T. RY., OTTAWA, December 31, 1908.

SIR,—In reply to your letter of the 29th instant, *re* assignment of two contracts for construction from Messrs. O'Brien and McDougall Bros., to Messrs. O'Brien, Fowler & McDougall Bros., these assignments were approved by resolution of our Board, of which I inclose you a certified copy.

I am, sir, your obedient servant,

The Auditor General. P. E. RYAN, *Secretary.*

Extract from Minutes of a Meeting held by the Commissioners of the Transcontinental Railway, December 15, 1908, Hon. S. N. Parent in the Chair.

A letter from Messrs. O'Brien & McDougall Bros., dated the 2nd instant, submitting an assignment of contracts, dated September 19, 1908, from Messrs. O'Brien & McDougall Bros., to Messrs. O'Brien, Fowler & McDougall Bros., was read, and the assignment approved.

P. E. RYAN.

Certified correct.

AUDIT OFFICE, OTTAWA, January 8, 1909.

SIR,—I have to acknowledge receipt of your letter of 31st ultimo, inclosing a copy of a resolution of your Board, approving of the assignment of the contract of O'Brien & McDougall Bros. to O'Brien, Fowler & McDougall Bros.

I beg to call attention to the second paragraph of my letter of 29th ultimo, which you have apparently overlooked, viz.: the approval of the Governor in Council of this assignment.

Section 16 of the National Transcontinental Railway Act provides that all contracts involving an expenditure of $10,000 or upwards shall receive the sanction of the Governor in Council.

It has already been decided that any alterations in an existing contract must receive the sanction of the Governor in Council.

As the personnel of the contractors is an important factor in awarding contracts, it follows that an assignment of the contract by the contractors to any other persons should receive the sanction of the Governor in Council.

I have, therefore, to request that this sanction be obtained for the above-mentioned assignment.

I am, sir, your obedient servant,

The Secretary, N. T. R. Comm. J. FRASER, *A.G.*

THE COMMISSIONERS OF THE N. T. RY., OTTAWA, January 11, 1909.

SIR,—I have the honour to acknowledge the receipt of your letter of the 8th instant, *re* assignment of contracts of O'Brien & McDougall Bros., to O'Brien, Fowler & McDougall Bros., and in reply to say, that no departure has been made from the provisions of the contracts, which provide that 'no assignment shall be made without the consent of the commissioners.' The commissioners have expressed their approval of the assignment per resolution of the Board, a copy of which has already been furnished you, and the terms of the contracts have been absolutely complied with in this respect. The original tenderers have not been released at all, but the firm has been strengthened by the addition of Mr. Fowler.

I am, sir, your obedient servant,

The Auditor General. P. E. RYAN, *Secretary.*

AUDIT OFFICE, OTTAWA, January 29, 1909.

SIR,—I have to acknowledge receipt of your letter of 11th instant, *re* assignment of contracts of O'Brien & McDougall Bros. to O'Brien, Fowler & McDougall Bros., in which you say that no departure has been made from the provisions of the contracts which provide that 'no assignment shall be made without the consent of the commissioners.'

In reply, I beg to say that the point at issue is that the commissioners have not the power to accept the assignment without the consent of the Governor in Council.

My contention is that, as the consent of the Governor in Council is necessary in the awarding of the contract, no departure of this nature from the contract can be made without his consent.

I shall be much obliged if you will obtain the opinion of the Department of Justice on this point and communicate the same to me for our guidance in the future.

I am, sir, your obedient servant,

The Secretary, N. T. R. Comm. J. FRASER, *A.G.*

(NOTE by A.G., Oct. 7, 1909: No answer has yet been received to this letter.)

Transcontinental Railway: Tobique River Bridge.

AUDIT OFFICE, OTTAWA, August 18, 1909.

Willard Kitchen Co. contract, District 'A.'

SIR,—Under the heading 'rock excavation in or for caisson,' at pier No. 5, Tobique River bridge, on residency 17, station 1023 + 58, the following quantities have been returned and paid for at a special rate of $10 per cubic yard:—

	Cubic Yards.
January, 1909, estimate	283
February, 1909, estimate	17
March, 1909, estimate	27
June, 1909, estimate	254
Total	581

In the June, 1909, estimate there also appears on residency 19, station 1128 + 33 — 1140 + 80, Little River bridge, 77 cubic yards of 'solid rock under water,' at a special rate of $10 per cubic yard, presumably within cofferdam.

Please ask your chief engineer why item No. 8 of the schedule, covering excavation of foundations within cofferdams at $2.50 per cubic yard should not apply in each of the above cases. Or if the material excavated is all solid rock, should not the rate be as prescribed by paragraph 41 general specifications, viz.: 'three times that given in schedule, item 4,' solid rock?

I am, sir, your obedient servant,

The Secretary, N. T. Ry. Comm. FREDERICK HAYTER, *for A.G.*

(NOTE by A.G., Oct. 7, 1909: No answer has yet been received to this letter.)

Transcontinental Railway: Rock Borrow.

AUDIT OFFICE, OTTAWA, August 18, 1909.

SIR,—The Willard Kitchen Co., Ltd., May, 1909, estimate shows a payment for 91,840 cubic yards of 'rock borrow,' at $1.10¼ per cubic yard, amounting to $101,253.60.

This item and price do not appear in the schedule, but have evidently been arranged between the chief engineer and the contractor to cover special work. Of the 91,840 cubic yards mentioned, the following quantities are shown on the May returns as having been previously returned and paid for under 'solid rock' and 'loose rock,' and deduction is made from the May estimate as follows:—

Solid rock at $1.49 a cubic yard, 27,062 cubic yards	$40,322 38
Loose rock at 35 cents a cubic yard, 37,130 cubic yards	12,995 50
A total deduction of 64,192 cubic yards at average price of 83·06 cents	$53,317 88
This quantity paid at the new price of $1.10¼	70,771 68
An increase in cost of	$17,453 80

Please ask your chief engineer for an explanation of this re-classification and adoption of the new item 'rock borrow,' at $1.10¼ per cubic yard.

I am, sir, your obedient servant,

The Secretary, N. T. Ry. Comm. FREDERICK HAYTER, *for A.G.*

(NOTE by A.G., Oct. 7, 1909: No answer has yet been received to this letter.)

Transcontinental Railway: Transfer to 'Train Haul.'

AUDIT OFFICE, OTTAWA, May 3, 1909.

J. D. McArthur Contract, District 'F.'

SIR,—The following apparent re-classifications are noted in the November, 1908, returns, which have just been examined in this office:—

Residency No. 21, Division No. 5—

	Cubic Yards.
Item No. 5, loose rock, minus quantity	22,770
Item No. 6, common excavation, minus quantity	233,541
Item No. 9, overhaul, minus quantity	2,556,400
Item 74 cents train haul, plus quantity	263,561

Please ask your chief engineer for some particulars of this transfer.

I am, sir, your obedient servant,

The Secretary, N. T. Ry. Comm. FREDERICK HAYTER, *for A.G.*

(NOTE by A.G., Oct. 7, 1909: No answer has yet been received to this letter.)

Transcontinental Railway. Dates of Completion.

AUDIT OFFICE, OTTAWA, December 16, 1908.

SIR,—Your attention is directed to the dates of completion for the following contracts for construction:—

Lyons & White, Dist. 'A,' September 1, 1908.
John W. McManus Co., Dist. 'A,' August 1, 1908.
G. T. P. Ry. Co. (mile 0-50), Dist. 'A,' September 1, 1908.
G. T. P. Ry. Co. (mile 150-195) Dist. 'B,' September 1, 1908.
Hogan & Macdonell, Dist. 'B,' September 1, 1907.
M. P. & J. T. Davis, Dist. 'B,' September 1, 1907.
Macdonell & O'Brien, Dist. 'B,' September 1, 1907.
J. D. McArthur, Dist. 'F,' September 1, 1907.

Section 4 of the contract provides that the work shall be completed and delivered to the commissioners at the above specified dates, and section 5 prescribes a penalty of $5,000 per calendar month for non-completion within the time so specified. As the contracts mentioned are still unfinished, and the dates of completion have elapsed, will you please inform us whether the Governor in Council has authorized any extension of the time limit, or whether any steps have been taken to enforce the penalty clause?

I am, sir, your obedient servant,

The Secretary, N. T. Ry. Comm. FREDERICK HAYTER, *for A.G.*

(NOTE by A.G., Oct. 7, 1909: No answer has yet been received to this letter.)

Re Newcastle Station.

AUDIT OFFICE, OTTAWA, December 18, 1908.

SIR,—Auditor A. B. Comeau reports upon an inspection of the Newcastle station made by him November 3 to 7, as follows:—

'Completed audit. Freight books in bad condition. Freight delivered on credit without authority. Cash not regularly accounted for.'

The delivery of freight without payment of the charges and the irregularity of accounting for cash are very serious matters, and I should be glad to know what action has been taken in reference thereto.

I am, sir, your obedient servant,

Genl. Mgr. Govt. Rys. J. FRASER, *A.G.*

Re Drummondville City Ticket Agency.

AUDIT OFFICE, OTTAWA, December 18, 1908.

SIR,—Auditor A. B. Comeau reports upon an inspection made by him on November 19, that the city ticket agent at Drummondville was depositing I. C. R. funds in the Molsons Bank to his personal account.

Please let me know if the agent has been instructed to make the deposits to the Receiver General's account in the future.

I am, sir, your obedient servant,

Genl. Mgr. Govt. Rys. J. FRASER, *A.G.*

Re Auditor's Suspense Account.

AUDIT OFFICE, OTTAWA, August 10, 1909.

SIR,—An official of this office, who recently visited Moncton, examined into the condition of the auditor's suspense account.

The balance at the debit on March 30 last was $53,111.47, and the items have been accruing year by year since 1900.

I understand these amounts are largely in connection with settlements with other railways, and it seems to me there should be no reason why any differences arising could not be arranged within twelve months.

I am glad to learn that your officials will give special attention to the matter and dispose at an early date of as much as possible. Those amounts not recoverable should be charged back to traffic.

I am, sir, your obedient servant,

The Comptroller & Treasurer, I. C. R. J. FRASER, *A.G.*

ACCOUNTING DEPARTMENT, I. C. R., MONCTON, N.B., August 17, 1909.

SIR,—I have to acknowledge receipt of your communication of the 10th instant, with reference to the auditor's suspense account.

We are giving special attention to this matter and hope at an early date to reduce the balance considerably. I am urging upon our freight claim agent the absolute necessity of clearing all the old accounts, and will keep at him until I succeed in having them wiped off.

I am, sir, your obedient servant,

The Auditor General. S. L. SHANNON, *Comptroller.*

Re Arrears Due.

AUDIT OFFICE, OTTAWA, February 23, 1909.

SIR,—On October 7, 1907, the secretary of your department wrote that it was confidently expected that the advances, amounting to $3,500, to T. P. Owens, in connection with the arbitration between the Intercolonial and Grand Trunk Railways, would be accounted for in the near future.

On September 1 last a statement was furnished showing these advances still unaccounted for.

Don't you consider this matter calls for early attention?

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J. FRASER, *A.G.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, March 5, 1909.

SIR,—Referring to your letter of the 23rd ultimo and previous correspondence had with you relative to an accounting for advances, amounting to $3,500, made to Mr. T. P. Owens, in connection with the arbitration between the Intercolonial and Grand Trunk Railways, I have the honour to inform you that this matter is being looked into, and Mr. Owens will be called upon to send in a final statement of the accounts in question.

I am, sir, your obedient servant,

The Auditor General. L. K. JONES, *Secretary.*

Re Arrears Due on I. C. R.

AUDIT OFFICE, OTTAWA, February 23, 1909.

SIR,—I wrote the general manager of the Intercolonial Railway on November 26 last, calling attention to an increase of over $100,000 in the arrears due in 1908, as compared with 1907, inclosing statements showing the increases and decreases during the year. I have had no reply.

I now inclose you a copy of the letters and statements furnished to the general manager.

You will, no doubt, see the propriety of inquiring into these large increases, and finding out what steps are being taken in reference thereto.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J. FRASER, *A.G.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, March 5, 1909.

SIR,—I have the honour to acknowledge the receipt of your letter of the 23rd ultimo, inclosing copies of letters and statements furnished to the general manager of government railways, relative to the increase of over $100,000 in the arrears due in 1908 as compared with 1907. You ask what steps are being taken in regard thereto.

In reply, I have to say that the general manager has already been written to very fully in this connection, and requested to furnish a report on such arrears. His attention is again being called to the matter, however.

I am, sir, your obedient servant,

The Auditor General. L. K. JONES, *Secretary.*

AUDIT OFFICE, OTTAWA, August 10, 1909.

SIR,—I do not seem to have had any reply to my letter addressed to the general manager, dated November 26, 1908, calling attention to the large increase of arrears due, and submitting statements of sums due by railways and individuals and firms.

I now inclose a statement showing the amounts due by several railways on March 31, 1908, and on June 30, 1909.

I would call particular attention to the large increase in the amount due by the Halifax and Southwestern Railway, now amounting to $90,227.47.

I have to request you to bring the question of these arrears before the Board of Management.

I am, sir, your obedient servant,

The Comptroller & Treasurer, I. C. R. J. FRASER, *A.G.*

ACCOUNTING DEPARTMENT, I. C. R., MONCTON, N.B., August 26, 1909.

SIR,—I have to acknowledge receipt of your communication of the 10th instant, *re* arrears, and stating you do not seem to have had any reply to your letter addressed to the general manager, dated November 26, 1908.

I find, upon looking into this matter, that I wrote the general manager on December 14, 1908, giving him the particulars and explanations, and that it appears through some error on the part of his staff that my letter was not attended to, but learnt that they would take the matter up at once and communicate with you promptly.

I note your remarks with regard to amount due by the Halifax & Southwestern Railway. This matter I have brought to the attention of the Board of Management, as well as the question of all arrears.

I am, sir, your obedient servant,

The Auditor General. S. L. SHANNON, *Comptroller.*

INTERCOLONIAL RAILWAY, MONCTON, N.B., August 20, 1909.

SIR,—I find that your letter, dated November 26 last, asking for certain information in regard to the increase in the credit accounts under the head of railways, has not been replied to.

The matter was taken up when your letter was received, and I send you herewith a report of Mr. Shannon in regard to the matter. Since that time there have been some changes in the items that he refers to.

The amount owing by the Beersville Railway & Coal Co. has been paid out of a subsidy owing them by the Railway Department.

In regard to the Balliston Terminal Railway. The amount was considered by the sub-committee of public accounts at last session of parliament, and they decided, I believe, to write that off as an uncollectable debt.

The amount owing by the Caraquet Railway has not been paid. Suit was entered against that railway by the Department of Justice, and the case was before the Exchequer Court at St. John this summer. Mr. Shannon informs me that the judge, when he found it to be a matter of accounting, referred it to the Registrar of the Court. I wrote the Railway Department recently in regard to this company's indebtedness, and drew their attention to the fact that that company owes a larger sum than the amount for which suit was brought against them.

Canada Coal & Railway Co. That account was considered by the sub-committee of public accounts and it was decided to be uncollectable, and I understand it is to be written off.

Public Works Department. That amount is still standing in the books, as that department has not procured the appropriation from parliament, but they promised to procure it at the next session. The bridge represented by the amount is now in process of erection across the Restigouche river on the piers of the Intercolonial Railway bridge and close alongside of it, so as to furnish communication by highway between Quebec and New Brunswick at that point.

Hampton & St. Martins Railway. This amount was under consideration of the sub-committee of public accounts. It was decided to be uncollectable, and is, I believe, to be written off.

Halifax & Southwestern Railway. This amount has increased. The Intercolonial has not been able to collect from that railway, and the matter is in the hands of the Railway Department.

Kent Northern Railway. That account has increased, and nothing has been collected upon it.

Londonderry Iron & Mining Co. That amount has increased. The Railway Department has been for some time endeavouring to effect a settlement with the company.

Maritime Coal & Railway Co. That amount has been paid by being deducted from the amounts due that company for coal supplied to the railway. This deduction was made in April, 1909.

Maritime Engineering Company. This amount was before the sub-committee of public accounts, and as it is uncollectable, I understand they intended to report that it should be written off.

New Brunswick Coal & Railway Co. Nothing has been paid on this account. The amount is guaranteed by the Government of the Province of New Brunswick. Last June the railway officials had an interview with Mr. J. D. Hazen, Premier of New Brunswick, in regard to the question. He stated that he knew nothing personally in regard to the affair, as it was before his time of office, but he had been informed that there was an amount which had been claimed by the previous government of New Brunswick to be due from the Dominion government, and he had been told that that was the reason why the account had not been paid before. He stated that if it was shown to his satisfaction that the New Brunswick government had no claim, as represented, to offset any portion of the amount owing, that he would arrange at the next session of the legislative assembly for the payment of the amount.

New Brunswick & Prince Edward Island Railway. Some payments have been made on this account, but it has, on the whole, increased, and efforts are being made to have it collected.

North Shore Railway. This amount was paid out of an amount that was due to that company by the government, as a subsidy.

I am, sir, your obedient servant,

The Auditor General. D. POTTINGER.

Accounting Department, I. C. R., Moncton, N.B., December 14, 1908.

Sir,—I have to acknowledge receipt of your communication of the 1st instant, inclosing copy of a communication from the Auditor General, dated November 26 last, with reference to the increase of arrears due the Intercolonial Railway for the fiscal year ending March 31, 1908, as compared with the arrears due at the end of the fiscal year March 31, 1907, and asking for explanations in regard thereto.

The Auditor General points out that the increases are principally under the heading of railways, and in his statement attached to his letter the following appear to be the increases:—

	Increase for 1907-8.	Total Arrears.
1. Beersville Railway & Coal Co.	$ 627 34	$ 627 34
2. Balliston Terminal Railway.	0 27	396 41
3. Caraquet Railway.	905 40	20,522 54
4. Canada Coals & Railway Co.	317 84	317 84
5. Public Works Department.	14,705 00	14,705 00
6. Hampton & St. Martins Railway.	1,421 35	1,421 35
7. Halifax & Southwestern Railway.	51,340 99	51,340 99
8. Kent Northern Railway.	711 97	8,127 23
9. Londonderry Iron & Mining Co.	20,493 50	20,493 50
10. Maritime Coal & Railway Co.	3,614 50	3,614 50
11. Maritime Engineering Co.	2 40	2 40
12. New Brunswick Coal & Railway Co.	13,531 38	56,956 28
13. New Brunswick & P. E. Island Railway.	68 65	3,040 19
14. North Shore Railway.	676 25	676 25

Taking the above seriatim, the explanations of these increases are as follows:—

1. Beersville Railway & Coal Co. This represents car service, engine hire, &c., from January, 1905, to November, 1907, when this railway became the North Shore Railway (No. 14 in above list), and under the latter name car service and hire of locomotive. The Department of Railways has informed the Intercolonial Railway that a subsidy is due this railway, and it is proposed to deduct from such subsidy the

amount of indebtedness due by both the Beersville Railway & Coal Co. and the North Shore Railway to the Intercolonial.

2. Balliston Terminal Railway. This represents the value of an Intercolonial Railway car destroyed whilst on that road. It has been impossible to collect the amount, as the railway was sold subsequently under a foreclosure, and realised less than the bonded indebtedness; consequently there were no assets to pay creditors. The Department of Justice, in whose hands this account had been placed, advised it would not be advisable to go to any further expense in the matter. There is no increase in this account, as shown in the Auditor General's statement, the figures for 1907 being the same as in 1908, viz.: $396.41.

3. Caraquet Railway. This balance is made up of one-half of the claims paid for goods damaged by the burning of Gloucester Junction station, occupied jointly by the Intercolonial Railway and the Caraquet Railway, in June, 1888, $314.08; rolling stock sold to this railway, November, 1906, $10,197.47, less cash paid on account December, 1906, $2,000; car service, $12,010.97. The collection of this account has been transferred to the Department of Railways, who advised, under date August 21, 1907, that they have notified the company that unless payment was made forthwith the matter would be placed in the hands of the Department of Justice for collection. The department's attention was again drawn to this case, and under date November 27 last they state the matter will be at once taken up.

4. Canada Coals and Railway Co. This amount represents damage caused to certain Intercolonial Railway cars by a fire at Jubilee Mines whilst the cars were in the possession of that company. The collection of this amount was placed in the hands of the Department of Justice, and under date of September 28, 1907, the Department of Railways advises that as the account does not appear to be collectable the Department of Justice has been informed that no further action need be taken.

5. Public Works Department. This amount represents the value of original superstructure of the Restigouche bridge, since transferred to provincial authorities of Quebec and New Brunswick for a highway bridge. There was a vote passed by parliament under Department of Public Works to pay for this bridge, but the department allowed the same to lapse. Correspondence has been had with the Chief Engineer of that department in this connection, and he has informed the Comptroller that this amount will be placed in the estimates to be submitted to parliament at its next session.

6. Hampton & St. Martins Railway. This represents car service and engine hire, November, 1903, to April, 1905. Amount was sued for, but case was decided against the Intercolonial Railway, and not appealed.

7. Halifax & Southwestern Railway. This amount represents charges made against this railway for proportion of wages of employees at Halifax and Richmond stations from January 16, 1905, to December 31, 1907, $9,027.87; rental of tracks, yards, buildings and terminals at Halifax, $8,895.25; proportion of cost of switching engine services at Richmond and Halifax, $9,619.52; proportion of small stores, heating and lighting at Halifax station, $1,169.31; wages of employees at Southwest Junction station, car service, car repairs, &c., $22,629.04. The total of the above, representing $51,340.99, is a new item in the accounts for 1907-8. The company have been called upon to pay the same, but so far have not done so.

8. Kent Northern Railway. This amount represents rails and fastenings, $6,645.36; car service and car repairs, $1,481.87. The item for rails and fastenings has been outstanding for some years, $5,682.98 of the amount dating back to October, 1899, and the balance from August, 1906. The car service account has been accruing since September, 1905, and although repeatedly called upon to pay, it has been found impossible to collect anything. The secretary of the department wrote you on August 11, 1904, as follows: 'You should not continue to urge the company to make any further pay-

ments in respect of the rails that have been furnished to them by the Intercolonial.' Again in a letter from you to the then treasurer of this railway, dated October 16, 1905, (D/55462) you quote a telegram from the secretary of the department to you dated October 14, 1905, as follows: 'I am to say that rails only are not to be a charge against the Kent Northern Railway.'

9. Londonderry Iron & Mining Company, $20,493.50. This would appear to be a new item in the fiscal year 1907-8, as it had not been shown in previous years as an outstanding, the company disputing many of the items. Under my instructions this amount was included as an outstanding in the Balance Sheet, as upon a persual of the papers connected with it I found that the Department of Railways had been dealing with the Department of Justice to take proceedings for the collection of the amount, as being due the railway. I wrote you on November 3 last with reference to this, and under date the 4th instant you sent me a copy of a letter from the secretary of the department stating that the company had been written to, to the effect that if they did not pay the amount in question without further delay the Department of Justice would collect the same.

10. Maritime Coal & Railway Company, $3,614.50. This amount represents car service August, 1907, to March 31, 1908. This company took over the Canada Coals & Railway Company, and since that time have disputed the items of car service. The papers in connection with this case have been sent to the Department of Railways and Canals to deal with.

11. Maritime Engineering Company, $2.40. This represents work done by the Intercolonial in turning one pair of wheels. The company have been repeatedly asked for this amount, but it has not been possible to collect the same. The company is not now in existence.

12. New Brunswick Coal & Railway Company, $56,956.28. This represents rails and fastenings amounting to $47,496.34, and the balance for car services, car repairs, &c. By letter of July 20, 1904, the secretary of the Department of Railways wrote you that the minister had issued instructions to the effect that the matter of the payment for rails will be allowed to stand in abeyance, on the distinct understanding that interest will be allowed thereon; accordingly the above amount includes interest at four percentum per annum up to March 31, 1908. See also letter from secretary of Department of Railways and Canals to you dated January 31, 1905, inclosing copy of an order in council of the government of the province of New Brunswick, and stating that the Minister of Railways approves of same.

13. New Brunswick and Prince Edward Island Railway, $3,050.19. This amount represents car service outstanding for some years. The company has been regularly pressed for payment, and they have paid an average of $300 per year in reduction of the account.

I am, sir, your obedient servant,

Gen. Mgr. Gov't. Rys. S. L. SHANNON, *Comptroller.*

AUDIT OFFICE, OTTAWA, September 13, 1909.

SIR,—I beg to call your attention to the large increase of late years in the arrears due to the Intercolonial Railway.

In 1900 the amount due was $131,365.28. In the statement recently received the amount due on March 31 last was $439,335.68.

And it is a discouraging fact that very few of the items brought into this account are subsequently paid.

It must be borne in mind that every amount that goes to increase the arrears due, either reduces the expenditure or increases the revenue of the year in which they occur, and if not subsequently collected are to that extent giving fictitious statements of the revenue and expenditure of the road.

I inclose a statement showing the increases and decreases during 1908-9, and the amount of the arrears each year since 1900. The large amount due for rents furnished this year for the first time calls for attention.

I also inclose copies of my letters to the general manager, dated January 25, 1908, November 26, 1908, and August 10, 1909, and his reply, dated August 20, 1909.

I am, sir, your obedient servant,

Chairman Managing Board, Gov. Rys. J. FRASER, *A.G.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, September 15, 1909.

SIR,—I am in receipt of your letter, dated the 13th instant, calling attention to a large increase in arrears due to the Intercolonial Railway.

I shall have an immediate report made to me upon the whole matter, and a further communication will be addressed to you in the course of a few days.

I am, sir, your obedient servant,

The Auditor General. M. J. BUTLER, *D.M. & C.E.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, September 17, 1909.

SIR,—With further reference to outstanding accounts due to the Intercolonial Railway.

The case of the Quebec Southern Railway—old account, amounting to $25,637.33. I am advised by the Justice Department that we can retain an amount of $20,000 on subsidy account, to apply towards the extinguishment of this debt.

I am, sir, your obedient servant,

The Auditor General. M. J. BUTLER, *D.M. & C.E.*

Re **Intercolonial Railway Arrears: Halifax and Southwestern Railway.**

AUDIT OFFICE, OTTAWA, September 14, 1909.

SIR,—In the statement of Intercolonial Railway arrears furnished with my letter of 13th instant, there appears the Halifax and Southwestern Railway for $90,063.78.

The details of this amount are given as follows:—

Proportion of wages of employees at Halifax and Richmond stations from January 16, 1905, to March 31, 1909	$24,991 65
Rental of tracks, yards, buildings and terminals at Halifax from January 16, 1905, to March 31, 1909	13,584 64
Proportion of cost of switching engine services at Richmond and Halifax from January 16, 1905, to March 31, 1909	13,917 27
Proportion of small stores, heating, lighting, &c., at Halifax and Richmond stations from January 16, 1905, to March 31, 1909	1,891 47
Proportion of cost of maintenance of way expenses at Halifax and Richmond stations from January 6, 1905, to March 31, 1909	5,121 54
Wages of employees and Southwest Junction station, car repairs, car service, &c	30,557 21
	$90,063 78

Seemingly nothing has been paid for these services since January 16, 1905.

Have you considered the propriety of notifying Messrs. Mackenzie & Mann that unless this account be paid it will be deducted from the next subsidy due them?

I am, sir, your obedient servant,

Chairman Managing Board, Gov. Rys. J. FRASER, *A.G.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, September 16, 1909.

SIR,—With reference to your letter in the matter of arrears due to the Intercolonial Railway.

I have the honour to advise you that, in accordance with the understanding arrived at before a Select Committee of Public Accounts, immediately upon the prorogation of parliament last session, instructions were issued to proceed against the Caraquet Railway for the recovery of the amount owing by them. The case came on to trial before the Exchequer Court, at the St. John sitting, when the counsel for the Caraquet Railway appears to have filed an affidavit to the effect that a settlement had been reached, and the matter was then referred by the judge for an accounting. I have not yet been able to learn the authority for the statement in question, but have reason to believe that the account will be paid before long.

With regard to the claim against the New Brunswick Railway & Coal Company. This railway is now the property of the province of New Brunswick. Accompanied by Mr. Pottinger, I interviewed Honourable Mr. Hazen and one of his colleagues, at St. John; when assurance was given that upon the meeting of the legislature, an amount would be placed in the estimates to pay the account. The only question at issue was—that exception was taken to the charging of interest on the bill, and an effort will be made to settle upon the amount, so the legislature can be asked to vote the sum due.

Re the Halifax & Southwestern Railway. A good deal of effort has been expended in an endeavour to collect this amount peaceably. I understand that the Railway Company has failed to earn the interest on its bonds, but have no means of verifying the statement. The suggestion you made to withhold any subsidies earned by Messrs. Mackenzie & Mann is not practicable, as the subsidies are not voted to Messrs. Mackenzie & Mann, but to the several corporations; and I am afraid it would not be possible to withhold from, say the Canadian Northern Quebec Railway, an earned subsidy on account of a debt incurred by the Halifax & Southwestern Railway.

Relative to the several other items shown on the list sent to me. A number of them were recommended to be written off by the Select Committee of the Public Accounts. However, the document has been referred to Moncton for advice as to what action has been taken.

I am, sir, your obedient servant,

The Auditor General. M. J. BUTLER, *D.M. & C.E.*

Canal Revenue: Arrears due.

AUDIT OFFICE, OTTAWA, February 23, 1909.

SIR,—I have received your letter of the 20th, in reply to my letter of October 27 last, in reference to the arrears due on canal revenue.

In my letter I inclosed a statement showing increases in arrears:

Due by old tenants		$18,076 40
New arrears		2,026 69
		$20,103 09
Less—Paid	$6,689 25	
Dropped or reduced	1,982 91	
		8,672 16
Net increase		$11,430 93

You inclose in your letter copy of a statement by your accountant which you hope will afford the desired information. This statement merely refers to the amounts dropped, and does not even explain in all cases why they were dropped.

No reference is made to the increases due by old tenants, nor to the new arrears.

The increase at the Welland canal was over $14,000. I have to ask for an explanation of this large increase, and what steps have been taken in reference thereto.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J. FRASER, *A.G.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, March 6, 1909.

SIR,—I have the honour to acknowledge the receipt of your communication of the 23rd ultimo, with further reference to the above matter, in which you state that the statement furnished you on the 20th ultimo refers merely to the amounts dropped, and that it does not even explain in all cases why they were dropped; that no reference is made to the increases due by old tenants, or to the new arrears, and that the increase on the Welland canal was over $14,000, and you ask for an explanation of this increase, and for information as to what steps have been taken with reference thereto.

In reply I inclose herewith for your information, a copy of a statement, dated the 3rd instant, from the accountant of the department, showing the payments that have been made, and the amounts dropped, on account of the canal arrears for 1907-8, and not paid on June 30, 1908, and have to say that it will be observed that he states that the arrears due on the Beauharnois canal are in the hands of the Department of Justice, together with those on the Welland canal that were investigated by Mr. Justice Madden, and that the department is constantly endeavouring to decrease the said arrears.

I am, sir, your obedient servant,

The Auditor General. L. K. JONES, *Secretary.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, March 3, 1909.

Memo. *re* Auditor General's letter, dated February 23, 1909, file 7209, letter No. 3.

The following statement shows the payments that have been made and the amounts dropped on account of the canal arrears of rent for 1907-8, not yet paid, June 30, 1908, as per statement dated August 28, 1908.

Beauharnois canal, dropped by O. C.	$ 2,068 00
Cornwall canal, paid	3,680 00
Lachine canal, paid	14,661 21
Rideau canal, paid	27 50
Sault Ste. Marie canal, paid	5 00
Welland canal, paid	11,131 00
Williamsburg canal, paid	880 00
Amount	$32,452 71

The Beauharnois canal arrears are in the hands of the Justice Department, as well as the Welland canal arrears investigated by Judge Madden. We are constantly endeavouring to decrease these arrears.

W. C. LITTLE, *Accountant.*

Re Hydraulic Leases: Lachine Canal.

AUDIT OFFICE, OTTAWA, February 1, 1909.

SIR,—On November 18 last the sum of $20,000 was collected from the Ogilvie Flour Mills Co., on account of excess water due under leases 14758, 14759 and 15315.

In this connection I should be glad to know what period this payment covers, the amount of the annual rental, the quantity of water granted under the lease and the basis of the charges for water used in excess of the leases so granted.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J. FRASER, *A.G.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, February 6, 1909.

SIR,—I have to acknowledge the receipt of your letter of the 1st instant, in which you ask for information as to the sum of $20,000 collected from the Ogilvie Flour Mills Company, under their Lachine canal leases.

In reply I inclose a copy of a memorandum prepared by the accountant of the department, dated February 4 instant, which it is hoped will give you the information you desire in the matter.

I am, sir, your obedient servant,

The Auditor General. L. K. JONES, *Secretary.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, February , 1909.

Memorandum:

The amount of excess power granted to the W. W. Ogilvie Milling Co., under authority No. 14758, forming part of lease No. 14559, is 500 h. p. at $6 per annum, payable not in advance, every six months, whether used or not, provided the power is available.

This authority No. 14758 further grants 750 h. p. not to be used except with the minister's consent in writing, payable at the same terms as the above 500 h. p. This consent has not yet been granted.

The amount of excess power under authority No. 14759 is 500 h. p., and under authority No. 15315, 750 h. p. = 1,250 h. p., at $6, making $7,500 a year, payable not in advance, every six months, whether used or not, provided power is available.

For the last five years I have charged the company with that excess power, amounting to $10,500 yearly.

They have paid, in the last four years, 3 times $10,000 and once $20,000 on account, leaving yet a balance of some $10,000 due, but under the original leases, Nos. 14559 and 14560, they have filed a claim that all that excess power they are charged for is not all available, and want a reduction.

They base their claims on the lack of head, but the Department of Justice does not recognize such a right to a reduction of rent under that claim, and the engineer in charge, Mr. Marceau, has been requested to forward the certificates required by the lease, when the matter will be finally adjusted between the department and the company.

Very likely there will be a small rebate, owing to the water having been shut off longer than the reserve in the leases.

The Auditor General. W. C. LITTLE, *Accountant.*

Re Arrears Due: Canals.

AUDIT OFFICE, OTTAWA, October 7, 1909.

SIR,—I have received a statement of the arrears due to your department on account of canals, on March 31 last, and yet unpaid.

I observe that the amount due has increased at the following canals:—

Canal.	Due 1908.	Due 1909.	Increase.
Chambly	$ 754 84	$ 838 84	$ 84 00
Rideau	3,590 45	4,494 21	903 76
Trent	710 95	2,020 45	1,309 50
Welland, rents	1,609 66	1,872 00	262 34
Williamsburg	5,895 17	7,563 17	1,668 00

Presumably these increases are rents accrued in 1908-9, which have not been paid. No doubt these amounts do not represent all the rents accrued in 1908-9 which have not been paid, as some of the arrears due in 1908 have been paid.

While it may be difficult to collect arrears of long standing, it should be practicable to collect the current rents.

Your accountant states, in his memorandum, dated March 3, 1909, that the arrears due by the Montreal Cotton Co., $2,068, at Beauharnois canal, were dropped by order in council.

In the statement of arrears due at Carillon and Grenville canal, March, 1908, there appears J. P. Mullarky for $21,500. This amount does not appear in the statement now furnished, and as it does not appear to have been paid, presumably it was dropped.

It has always been held that no department has authority to write off any amount due to the government. This can only be done by parliament on the recommendation of the Public Accounts Committee.

You state that the arrears due at the Beauharnois and Welland canals are in the hands of the Justice Department. What action has been taken in connection therewith?

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J. FRASER, *A.G.*

Re Interest under Advances under Railway Subsidies Acts.

AUDIT OFFICE, OTTAWA, June 2, 1909.

SIR,—The receipts from this source during the fiscal year, 1908-9, were as follows:—

Through Indian Affairs	$ 191 16
" Interior Department	53 05
" Militia and Defence	278 66
" Post Office Department	57,640 34
	$58,163 21

I have to call attention to the small amount received through the Interior Department, and to the fact that nothing was received through the Department of Agriculture, Mines, Public Works, Railways and Canals, and Royal N. W. M. Police.

I am, sir, your obedient servant,

The Secretary, Treasury Board. J. FRASER, *A.G.*

'Virginian' and 'Victorian' not Eighteen Knot Steamers under Allan Contract.

AUDIT OFFICE, OTTAWA, September 8, 1908.

SIR,—I have the honour to acknowledge the receipt of your application of the 2nd inst. for a cheque in favour of H. & A. Allan, for the sum of $153,786.67, being subsidy claimed for the quarter ended June 30, 1908, on the steamship service between Great Britain and Canada.

According to the vouchers. logs, &c., sent me in support of this claim the steamers *Virginian* and *Victorian* are treated as eighteen knot steamers, though given in the contract as seventeen knot and so treated heretofore, in so far as the subsidy was concerned.

I do not find any grounds for the change in the papers sent me with your present claim, as in no instance did either of the steamers in question make an average of eighteen knots on the round trip, and I shall, therefore, be obliged if you will let me know your reasons for having transferred them to a higher class than that allotted them in the contract.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, September 9, 1908.

SIR,—I beg to acknowledge receipt of your letter of September 8, in connection with our application of the 2nd instant for a cheque in favour of Messrs. H. & A. Allan for the sum of $153,786.67, being subsidy claimed for the quarter ended June 30, 1908, for steamship services between Canada and Great Britain.

I beg to state that the *Virginian* and *Victorian* under the contract are guaranteed to have a speed of 17 knots, but are in no way limited to that speed. In view of the fact that the whole spirit of the contract is to pay the contractors according to the speed attained, it has been considered by this department that the contractors are justly entitled to the subsidy earned under clause 5, sub-sections (*a*), (*b*), (*c*), (*d*) and (*e*), irrespective of the name of the ships which may attain the speeds therein specified. The desire of the government is for a fast service.

You infer that a change has been made. I beg to state that no change has been made. Never before have either the *Virginian* or *Victorian* made the excellent time as that shown in the quarter under discussion. One voyage was within a fraction of 18 knots. They have never before attained a speed of anything worth considering over 17 knots. The contract, however, specifically states:—

'For each complete round voyage between Liverpool and Rimouski or North Sydney, performed at the rate of 18 knots per hour, £2,500 sterling.

'For each complete round voyage between Liverpool and St. John and Halifax, performed at the rate of 18 knots per hour, £3,000 sterling.'

And by clause 12 a deduction is specified of a sum equal to 5 per cent of the subsidy for every quarter knot by which the average speed actually made has fallen below the average speed specified in clause 5 of the contract.

If the *Virginian* and *Victorian* make fast trips, they should be paid accordingly. If the company are not to receive more than the maximum of the amount paid on voyages performed at the rate of 17 knots, there is no inducement to them to increase the speed of their ships beyond that speed.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

AUDIT OFFICE, OTTAWA, September 11, 1908.

SIR,—I have the honour to acknowledge the receipt of your letter of the 9th inst., in explanation of your having allowed the steamers *Virginian* and *Victorian* of the Allan Line to be classed as eighteen-knot steamers instead of seventeen-knot, the class allotted to them in the contract.

I am still of opinion that the voyages of these steamers during the quarter ended June 30, 1908, cannot, under the contract, be paid for as 'performed at the rate of eighteen knots per hour.' It seems to me that the obvious meaning of this clause is that the steamers, under normal conditions, will make an average of eighteen knots per hour on the round trip; but you will observe that in no instance did either of the two steamers in question obtain this minimum speed.

Under the contract the speed of the *Virginian* and *Victorian* has been guaranteed at seventeen knots per hour, and so far as I have seen from the records of their various sailings since the contract came into force, there are no just grounds for otherwise classifying them or for making payments for the trips performed by them otherwise than at the rate provided for seventeen-knot trips.

As I am holding your application, and no doubt the delay in making payment of the quarterly subsidy is causing some inconvenience to the contractors, I would suggest that an application be sent for the amount due under a seventeen-knot service and the question of the amount disallowed on objection from this office may, if the department does not agree with me, be dealt with later on.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, September 12, 1908.

SIR,—I beg to acknowledge receipt of your letter of September 11, raising certain objections in connection with my requisition of September 9, for a cheque in favour of Messrs. H. & A. Allan for the sum of $153,786.67, being subsidy claim for the quarter ended June 30, 1908, for steamship service between Canada and Great Britain.

I note in the first paragraph of your letter you state that the *Virginian* and *Victorian* are 'allotted to the seventeen knot class in the contract.' I beg to point out this is not the case. Clause one, in referring to these two steamships merely states that they shall be of 'guaranteed seventeen knots effective speed.' That is, they were to be capable of giving a minimum speed of seventeen knots. At that time it was not known what speed they might attain.

With reference to your second paragraph, in which you doubt whether the voyages of the *Virginian* and *Victorian* should be paid for on the basis of a rate of eighteen knots per hour, I beg to point out that many voyages have been performed by the *Empress of Britain* and the *Empress of Ireland* in which they have not attained that speed, and yet they have been paid on that basis, as they were supposed to have a minimum speed of eighteen knots. The whole spirit of the contract (in which, I may say, I had much to do with the drafting) was to pay for the service according to the speed attained.

I trust this explanation will enable you to issue a cheque for the full amount requested in my application of the 9th instant. However, should you still have reason to doubt the issue of this cheque, perhaps a cheque for, say $125,000 on account, might be issued without delay.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

AUDIT OFFICE, OTTAWA, September 16, 1908.

SIR,—I beg to inform you that, as requested in your letter of the 12th inst., I have certified to a payment of $125,000 in favour of Messrs. H. & A. Allan, being part payment of their claim for subsidy on the steamship service between Canada and Great Britain during the quarter ended June 30, 1908.

I trust you will take up the question of the balance due on this service at your early convenience, as I am still of opinion that in claiming payment for the trips of the steamers *Victorian* and *Virginian* as having been performed at the rate of eighteen knots per hour, the Messrs. Allan are not keeping within either the letter or the spirit of the contract.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, November 16, 1908.

SIR,—Referring to your letter of September 16, I beg to send you herewith copy of an order in council which I trust will now enable you to issue a cheque for the equivalent of £1,325 in favour of Messrs. H. & A. Allan, being balance of subsidy for quarter ended June 30, 1908, on the Canada-Great Britain service.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

O. C., November 14, 1908.

On a report, dated November 6, 1908, from the Minister of Trade and Commerce, submitting, in connection with the sum of £31,600, the full amount claimed for mail subsidy by the Messrs. H. & A. Allan, for the quarter ended June 30, 1908, that a question has arisen between the Department of Trade and Commerce and the Auditor General as to whether or not the full subsidy should be paid, the difference being £1,325, which amount has been disallowed by the Auditor General.

The minister observes that the £1,325 referred to is the amount in question consequent upon the doubt expressed by the Auditor General as to whether the Allan steamships, that is to say, the *Victorian* and *Virginian*, are to be paid at the same rate as the *Empress of Britain* and *Empress of Ireland* when the former steamships attain the same average speed per hour as that attained by the latter steamships.

The following are the average speeds attained by the steamships engaged in the quarter above referred to:—

	Knots per hour.
Empress of Britain	17·07
Victorian	17·36
Empress of Ireland	17·68
Virginian	17·15
Empress of Britain	17·93
Victorian	17·45
Empress of Ireland	18·00
Virginian	17·09
Empress of Britain	17·71
Victorian	17·97
Empress of Ireland	17·94
Virginian	17·24
Empress of Britain	18·00

The minister, concurring in the attached report of the Deputy Minister of Trade and Commerce, recommends that the full mail subsidy of $31,600 be paid to Messrs. H. & A. Allan for the quarter ended June 30, 1908.

The committee submit the same for approval.

(Sgd.) RODOLPHE BOUDREAU,
Clerk of the Privy Council.

AUDIT OFFICE, OTTAWA, November 21, 1908.

SIR,—I have the honour to acknowledge the receipt of your letter of the 16th inst., inclosing a copy of an order in council of November 14, 1908, upon the authority of which you ask that Messrs. H. & A. Allan be paid for the voyages sailed by their steamers *Virginian* and *Victorian* during the quarter ended June 30, 1908, upon the basis of 'eighteen-knot steamers,' as that term is understood in their contract of January 19, 1906.

As I interpret the contract, an 'eighteen-knot steamer' is one that, under normal conditions, will average eighteen knots on the round voyage between Canada and Great Britain, a speed which, it has not been shown, has been attained at any time by either of the steamers in question. It seems to me, therefore, that, under the contract, the Messrs. Allan have already been paid in full for the voyages of the June quarter, 1908, and I am unable to accept the order in council to which you refer as sufficient authority for the payment of the balance of their claim.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

AUDIT OFFICE, OTTAWA, February 12, 1909.

SIR,—I have the honour to acknowledge the receipt of your application of the 9th inst., for a cheque of $144,647.07 in favour of Messrs. H. & A. Allan, being amount of subsidy claimed for the ocean steamship service between Canada and Great Britain during the quarter ended December 31, 1908.

In this claim the steamer *Victorian,* sailing from Liverpool on October 23 and November 20, is classed as an eighteen-knot steamer, which, as I have pointed out in previous communications, is in my opinion, not warranted by the contract.

How do you arrive at 4,938 miles as the actual distance travelled by the steamer *Tunisian* on the voyage sailed between Liverpool and Halifax and return in December last?

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, March 30, 1909.

SIR,—I beg to send you herewith a duly certified copy of an amended agreement entered into between the minister of this department and Messrs. H. & A. Allan, which was drawn up on consultation with the Department of Justice.

I may state that these articles of agreement were prepared after considerable correspondence after the receipt of your letter of September 8, 1908; and the matter was referred to the Treasury Board and recently referred to the Department of Justice. The Department of Justice stated that the intention of the contract was not

perfectly clear, and suggested that a supplementary contract declaratory of the intention be prepared, and in that way the matter could be satisfactorily disposed of.

The inclosed was, therefore, prepared at the instance of the Department of Justice, so I trust there will be no further delay in the payment of the subsidies due.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

AUDIT OFFICE, OTTAWA, April 27, 1909.

SIR,—I beg to acknowledge the receipt of your application of the 22nd inst., for a cheque in favour of Messrs. H. & A. Allan for the amount of the balance due them for the quarters ended June 30, 1908, and September 30, 1908, consequent upon the basis of payment for the trips of the steamers *Victorian* and *Virginian,* established by the supplementary or declaratory contract of March 25, 1909.

According to the vouchers and other papers sent me in support of the Messrs. Allan's claim for these two quarters, the balance due under the interpretation of the contract as now established is $19,223.34. In connection with this amount, I beg to bring to your notice the following trips by the steamers named, performed during the period in question:—

Virginian, sailing from Liverpool May 22, 1908.
Victorian, sailing from Liverpool July 3, 1908.
Victorian, sailing from Liverpool July 31, 1908.
Virginian, sailing from Liverpool August 14, 1908.
Victorian, sailing from Liverpool September 23, 1908.

In regard to these trips I should like to be informed of the interpretation given by the department to the clause of the contract providing for a deduction of five per cent of the subsidy for each trip, for every quarter knot below the average speed called for. For instance, if the speed maintained by the eighteen-knot steamers had been 17·76 knots, would any deduction be made, or in case it had been 17·49 knots would there be a deduction of five per cent made?

Please make application for the amount which in your opinion should be paid.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, April 28, 1909.

SIR,—I beg to acknowledge receipt of your letter of April 27; and I inclose you herewith a statement showing in detail balances due on certain sailings for the June quarter and the September quarter, of the steamship service between Canada and Great Britain. This shows £1,325 due for the June quarter and £2,625 for the September quarter; a total of £3,950, or $19,223.34.

Answering specifically the deductions we would make on the sailings you quote, I may say that they are treated as eighteen-knot boats in all calculations, and 5 per cent is deducted for each full quarter knot the speed falls short of eighteen knots.

In the instance you state, if the speed maintained by the eighteen-knot steamers, or the *Empress* steamships, or the *Virginian* or *Victorian,* has been 17·76, no deduction would be made, as we have reckoned the quarters in favour of the contractors. In case it was 17·49, there would be a deduction of 10 per cent, not 5 per cent, as stated in your communication.

I therefore again make request for a cheque for £3,950, or its equivalent, $19,223.34.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

Canada, China and Japan Service: C. P. R. Contract.

AUDIT OFFICE, OTTAWA, January 15, 1909.

SIR,—I beg to acknowledge the receipt of your letter of the 14th inst., enclosing a copy of a contract between His Majesty's Postmaster General and the Canadian Pacific Railway for the conveyance of mails between Liverpool and Hong Kong from April 7, 1908, to April 6, 1911.

In connection with this agreement with the Imperial government, I should like to know the interpretation which you put upon clause 11 which deals with the conveyance of other mails than those for the far east.

As you are aware, the Canadian Pacific Railway Company is at present under contract with your department for the conveyance of mails by their Atlantic steamships as well as being under agreement with the Messrs. Allan for the conveyance of the mails by the *Empresses*.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

AUDIT OFFICE, OTTAWA, January 22, 1909.

SIR,—I have the honour to acknowledge the receipt of your application of the 20th inst., for a bill of exchange in favour of His Majesty's Postmaster General for £18,750 sterling, being subsidy claimed for mail service between Canada, China and Japan for nine months ending December 31, 1908.

In connection with this claim, I beg to call your attention to chapter 9 of 63-64 Victoria, authorizing the Governor in Council to grant a subsidy in aid of the Canada, China and Japan service for a term not exceeding ten years, of £15,000 sterling for a monthly service, or £25,000 sterling for a fortnightly service.

Unless, therefore, there has been a fortnightly service during the period in question, no greater amount than £15,000 for one year may be paid.

I have already called your attention to the new contract between the Imperial government and the Canadian Pacific Railway Company of October 12, 1908, under which, according to a minute of the Imperial Treasury, attached thereto, Canada has agreed to pay £25,000 sterling annually for a tri-weekly service in summer and a monthly service in winter.

If this is the contract under which the service for which you have asked payment has been performed, it seems to me that the authority of parliament, either in the form of a fresh subsidy statute or an appropriation in the Supply Bill, will be necessary before I may pass your application.

I shall be obliged if you will let me have an answer to my letter of the 15th inst., with reference to clause 11 of the contract with the Canadian Pacific Railway Company.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, January 25, 1909.

SIR,—I beg to acknowledge the receipt of your letters of January 15 and 22, with reference to clause 11 of the contract entered into between the British government and the Canadian Pacific Railway. This clause, I note, reads as follows:—

'In addition to the service above described the company shall, without further payment than the subsidy hereinafter mentioned, convey by any of their steamships

or other vessels plying between any port or ports in the United Kingdom and any port or ports in the Dominion of Canada any mail which the Postmaster General may tender for conveyance by such vessels between any ports or places (including ports of departure and destination) on the routes thereof, respectively.'

The term 'Postmaster General' in this clause, you will note, is His Majesty's Postmaster; and I presume you quote this clause in view of the fact that the C.P.R. steamships *Empress of Ireland* and *Empress of Britain* are engaged in the service performed by Messrs. H. & A. Allan for the carriage of mails between Canada and Great Britain. As you are aware, these steamships are under a sub-contract with the Messrs. Allan, and this department in no way recognizes these two steamships as other than the steamships engaged by the Messrs. Allan for the performance of the mail contract.

When the department, in its endeavour to accelerate the Canada-Great Britain service, insisted upon faster boats being placed on the route by the Messrs. H. & A. Allan, it so happened that at this time the *Empress* steamships were building, and the Allans subsequently made an arrangement with the Canadian Pacific Railway by which these two steamships should be employed on the service.

The Canada, China and Japan service has never been considered, in view of the recognized Canadian subsidized mail line to Great Britain, as an Atlantic service, but more as a Pacific service so far as Canada is concerned; and as you are aware, Canada has merely contributed to this service which has always been considered an Imperial service between Great Britain and the far east, and by which Canada has benefited chiefly upon the Pacific ocean rather than upon the Atlantic. The last contract for this service expired on April 7, 1906, which was subsequently renewed by the British and Canadian governments for two years and consequently expired on April 7, 1908. This, in turn, has been renewed, under date of October 12, 1908, for an accelerated service, and an increased subsidy upon the part of Canada.

I send you herewith copy of an order in council of November 21, 1907, which will be of interest in this connection. I may state that the statute does not expire until 1911; and on the current year's vote there is an additional amount voted ($48,666.66) being Canada's additional share in the agreement for payment of the subsidy of £15,000 and £25,000 by the British and Canadian governments, respectively.'

We have no proofs that a fortnightly service has been maintained; but a fortnightly service has been advertised for the period covered in our application; and as heretofore the performance of this service has been left entirely in the hands of the Imperial government, they advising us at the end of the fiscal year of any deductions that may be necessary.

In the estimates for the coming year the same provision for the payment of the subsidy has been made, that is to say, the statutory amount of $73,000 and the additional amount to be voted which will appear in the estimates of $48,666.66.

I beg to state that I have received a cable from Lord Strathcona, under date of January 20, stating that the British government is urging payment at the earliest possible moment of the China-Japan subsidy.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

AUDIT OFFICE, OTTAWA, February 16, 1909.

SIR,—I should like to have the opinion of the Department of Justice as to the effect of clause 11 of the contract between the Imperial government and the Canadian Pacific Railway Company for the conveyance of the mails between Liverpool and Hong Kong, on that portion of the Canada and Great Britain subsidy which the Messrs. Allan, under their agreement, may be called upon to pay for the voyages

of the two *Empresses* owned by the Canadian Pacific Railway Company, before passing your amended application of the 13th inst. for $140,000.

These steamers are obliged to carry, by any of their steamships or other vessels, any mails which the Postmaster General may tender them without further subsidy than that stipulated in the contract with the Imperial government.

In view of this clause may not the government of Canada deduct the amount payable by the Allans for the voyages of the *Empresses,* at least on the west-bound trips, or recover in some other way, the amount so paid, which I regard as an additional subsidy, from the railway company?

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, April 13, 1909.

SIR,—Referring to your letter of February 16, with reference to the Allan Line contract, I inclose herewith a copy of a letter just received from the Department of Justice. I trust there will be no further delay in the payment of the subsidies due.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

DEPARTMENT OF JUSTICE, OTTAWA, April 10, 1909.

SIR,—Referring to your letter of February 20 last, inclosing copy of a letter from the Auditor General to you of February 16, and copies of the contract of October 12, 1908, between His Majesty's Postmaster General and the Canadian Pacific Railway Company with reference to the conveyance of mails between Liverpool and Hong Kong, and of the contract of January 19, 1906, between the Minister of Trade and Commerce and Messrs. H. & A. Allan with reference to a regular steamship service between Canada and Great Britain it appears that by clause 11 of the former contract the company agrees to convey by any of their steamships or other vessels plying between any port or ports in the United Kingdom and any port or ports in the Dominion of Canada any mails which the Postmaster General may tender for conveyance by such vessels between any ports or places on the routes thereof, respectively. This clause, however, affects only the relations between His Majesty's government and the Canadian Pacific Railway Company, and it cannot, in my opinion, be invoked to affect any liability which would otherwise exist to the Messrs. H. & A. Allan under the Canadian contract to make payment to them for voyages performed in accordance with the stipulations of that contract.

It will be observed that the Canadian contract stipulates for a very different sort of service from that required by the Imperial contract, and if, as the Auditor General seems to suggest, the two contracts might on occasion overlap in reference to the carrying of west-bound mails at the request of His Majesty's Postmaster General, I would not regard that fact as affording a defence to any claim for subsidy earned under the Canadian contract.

Papers returned herewith.

I am, sir, your obedient servant,

Deputy Minister of Trade and Commerce. E. L. NEWCOMBE, *D.M. J.*

AUDIT OFFICE, OTTAWA, April 16, 1909.

SIR,—I beg to acknowledge the receipt of your letters of the 30th ult. and 13th inst., with reference to the claim of Messrs. H. & A. Allan for $144,647.07, being subsidy for quarter ended December 31, 1908, for steamship services between Canada and Great Britain, and to say that in view of the opinion of the Department of Justice respecting the legal points raised in previous correspondence with your department, I have passed your application for that amount.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

Pelee Island and Mainland Service.

AUDIT OFFICE, OTTAWA, April 3, 1909.

SIR,—I have the honour to acknowledge the receipt of your application of the 1st instant for a cheque of $1,500 in favour of the Chatham Navigation Company, Limited, being the amount of subsidy claimed by the company for a steamship service between Pelee Island and the mainland from September 16, 1908, to the close of navigation, December 6 following.

I find that last year (1907-8) Mr. Thomas Jefferson Stockwell was paid $1,500 for a weekly service on this same route during the year ended March 31, 1908.

There appears to have been a much more frequent service in 1908-9, but only from September 16 to December 6, for which service the full amount of the appropriation was paid. The payment, I know, is in accordance with the contract, and not, so far as I can see, contrary to the terms of the appropriation; but I am calling your attention to the facts so as to get information in regard to the service on the route in question during that part of the fiscal year 1908-9 not included in the period of service stipulated in the contract. Clause 3 of the contract fixes the rates that may be charged by the contractor for carrying passengers and freight on the boat used in this service. Please let me know what steps were taken by the department to ascertain if this condition of the contract was faithfully carried out. Was the contractor instructed to post a notice in his ticket office or in some conspicuous place on the boat, or in some other public place where those having occasion to travel over this route would be most likely to see it, giving the rates that may be charged under his contract?

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, April 5, 1909.

SIR,—I beg to acknowledge receipt of your letter of April 3, with reference to our application for cheque for $1,500 in favour of the Chatham Navigation Company, Limited, for steamship service between Pelee Island and the mainland from September 16, 1908, to the close of navigation in that year. You ask for information as to the service on the route in question during that part of the fiscal year 1908-9 not included in the period of service stipulated in the contract.

I beg to state that I have no positive information, though I believe there was a service there for a short time of an irregular nature, but as our contract did not include this period, I made no inquiries, nor do we propose to make any payments therefor.

As for the fixing of the rates, these rates were arranged after a consultation between the Steamship Company and some of the Pelee Islanders, and if the rates were not being carried out we should certainly hear of it. These steamship contracts are not considered of such a nature as to require our withholding the information from

the public, though the suggestion that you make that the rates chargeable should be posted in a conspicuous place is a good one, and I shall see that it is carried out in future, not, however, in instructing the contractor, but require him to do so under his contract.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

Canada and Newfoundland: The Reid Newfoundland Company.

AUDIT OFFICE, OTTAWA, October 10, 1908.

SIR,—With reference to your application of the 8th instant, for a cheque of $7,360 in favour of the Reid Newfoundland Company, being subsidy claimed for steamship service between Canada and Newfoundland from October 3, 1907, to June 30, 1908, in accordance with contracts dated February 1 and 15, 1908, I should like to be informed if the department is aware that the Post Office Department has been paying the company for mails carried by the steamer *Bruce,* the same steamer employed in the service for which subsidy has been claimed, at the rate of $5,000 or $6,000 per quarter.

Was it the intention of parliament when granting the subsidy in question that it was to be in addition to the amount paid by the Post Office Department, or to be substituted for it?

It seems to me if the subsidy and the mail service charges are both to be paid, the authority of the Governor in Council should be obtained.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, October 12, 1908.

SIR,—I beg to acknowledge receipt of your letter of October 10, and have to state that this department incidentally understood that some money was being paid to the Reid Newfoundland Company by the Post Office Department for the carriage of mails between Canada and Newfoundland, but the contract made with this department does not require the company to carry mails.

When the money was voted for this service there was no discussion in parliament as to whether it was for the carriage of mails or not. I may state that we make some contracts which do not require the mails to be carried and this is one of them. The general heading for the votes in connection with steamship services, you will note, is 'Mail Subsidies and Steamship Subventions.' This is a steamship subvention, not a mail subsidy.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

AUDIT OFFICE, OTTAWA, October 14, 1908.

SIR,—I have the honour to acknowledge the receipt of your letter of the 12th instant, with reference to your application of the 8th instant for a cheque of $7,360 in favour of the Reid Newfoundland Company, being for steamship service between Canada and Newfoundland from October 1, 1907, to June 30, 1908.

Your attention was called by letter of the 10th instant to the payments made by the Post Office Department to this Company for carrying the mails on the same steamer and over the same route to which the subsidy voted by parliament under the heading 'Mail Subsidies and Steamship Subventions' applies, because the heading would seem to imply that both services are to be treated as one, and not separately.

The Auditor General is still of this opinion, and as the estimates upon which the appropriation was based must have been submitted to council before presentation to parliament, he thinks the Governor in Council should have an opportunity of saying whether or not the subsidy may be paid in addition to the amount paid by the Post Office Department. There is no evidence before me that the contract with the company has been submitted to council.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. E. D. SUTHERLAND, *for A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, October 15, 1908.

SIR,—I beg to acknowledge the receipt of your letter of October 14, and to inform you that the subject of a contract for a steamship service between Canada and Newfoundland has not only been approved by council, but the government is authorized to enter into a contract with the Reid Newfoundland Company; I inclose herewith a copy of this order in council of February 18, 1908.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

AUDIT OFFICE, OTTAWA, May 13, 1909.

SIR,—I have the honour to acknowledge the receipt of your application of the 11th instant for a cheque of $2,088 in favour of Reid Newfoundland Company, being subsidy claimed for steamship service between North Sydney and Port aux Basques, Newfoundland during the quarter ended March 31, 1909.

On examination of the vouchers sent me in support of this claim I find that on several occasions during the period in question, fewer than three complete round trips were made within one week, and in three instances only one full round trip.

As you are aware, the contract with the Reid Company makes provision for six full round trips per week, but in case this maximum service has not been performed provision is made for payment of a less frequent service to a minimum or three round trips, or in case the harbour at Port aux Basques should be blocked by ice, two round trips may be the minimum service.

In view, therefore, of the limited service performed during the March quarter, 1909, and the fact that the contract stipulates that no payment shall be made unless the minimum service has been rendered, I should like to have further explanation in regard to your application and the evidence you have received that under the weather conditions prevailing it was not possible to give a more frequent or regular service.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, May 25, 1909.

SIR,—With reference to your letter of May 13, I beg to state that I have a communication signed by H. D. Reid, vice-president of the Reid Newfoundland Company, in which he states:

'The reason that the *Bruce* did not make the number of trips required by the contract during February and March, was that she was delayed owing to ice conditions and therefore it was impossible to make the schedule number of trips.'

In this instance no payment is made for trips not actually performed. There were 77 trips possible; and as they performed 31½ trips, there was a deduction of $64 to be made for each of the number remaining, that is to say, on 45½ trips, which equals $2,912. This deducted from $5,000 leaves $2,088, the amount of our requisition.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

AUDIT OFFICE, OTTAWA, May 31, 1909.

SIR,—I have the honour to acknowledge the receipt of your letter No. 10396 of the 25th instant, with reference to the subsidized steamship service between Canada and Newfoundland in which you give an extract from a communication from Mr. H. D. Reid, vice-president of the Reid Newfoundland Company, contractors for the service in question, to the effect that the limited service during February and March was caused by ice conditions under which it was impossible to give a fuller or more frequent service. Is it not necessary that Mr. Reid's statement in this regard should be verified either by the customs collector at North Sydney or some officer of the government responsible to your department? Apart from this statement of the weather or ice conditions prevailing at the time, it seems to me that under the contract, the company is not entitled to payment for any trips performed during a week in which the minimum service of two full round trips has not been given.

Under clause 1 of the contract it is provided that under the most unfavourable circumstances as therein detailed two round trips per week shall be the minimum. In my opinion this clause should be read in connection with clause 2 governing the payment of the subsidy.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, June 1, 1909.

SIR,—With reference to your letter of May 31, we are, of course, paying the contractors only for the actual trips made; and these trips are certified to by the collectors of customs at North Sydney, Louisburg, Port aux Basques. The department is satisfied that the service was performed as well as it possibly could be during the months of February and March, for it is common knowledge that the weather conditions could not have been much worse.

The steamer *Bruce* is especially on this service; and if any steamer could get through, the *Bruce* certainly would make the attempt; but apart from this, I may say that I personally drew up the first contract given to the Reid Newfoundland Company, and when drawing clause 1, I had in mind that it was the desire of the government to insist upon a daily service except Sundays; and in framing clause 2, I had the same point in mind when I wished to make it absolutely explicit and put in the words:

'Should there be from any cause whatever less than three round trips in any one week, no subsidy or part thereof shall be paid on account of any service performed during such week.'

This the contractors objected to unless the words:

'Unless it be established to the satisfaction of the minister that such failure has been caused by stress of weather,' were inserted, which were agreed to by the minister; and I omitted perhaps making the same definite statement in clause 1.

This contract has expired, that is to say on March 31 last, and I shall see that a change is made when the new contract is drawn.

This department has no government official responsible to this department to check matters of this kind at North Sydney or anywhere else. We have always had to rely upon the collectors of customs at the various ports.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

Inspection of Staples: Samples Sold.

AUDIT OFFICE, OTTAWA, March 17, 1909.

SIR,—During the fiscal year ended March 31, 1908, the grain samples sold realized as follows:—

At Winnipeg	$3,639 12
At Montreal	13 40
At Toronto	192 72
At Kingston	8 00
At Peterboro	.....

The amounts realized during the current year are as follows, according to the returns:—

At Winnipeg, to October 31	$1,063 80
At Fort William, to October 31	219 76
At Montreal, to December 31	.....
At Toronto, to December 31	.....
At Kingston, to December 31	5 25
At Peterboro, to December 31	28 65

In my letter of August 28 last, I called attention to the small return in 1907-8 from Montreal compared with Toronto.

What has become of the samples at both these places during the current year?

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, March 20, 1909

SIR,—I beg to acknowledge the receipt of your letter of March 17, with respect to the grain samples sold at various points.

I note you call attention to the small return in 1907-8 from Montreal as compared with Toronto. I may say that some time ago I also noticed this discrepancy and took the matter up with the officials at Montreal. I had a great deal of correspondence in connection therewith, but the outcome, I regret to state, was most unsatisfactory. I was informed that it was the custom at that point, under some old regulation or instructions received, for the deputy inspector to take some of the oats to feed his horse. The inspection revenue was small, and some years ago he was refused an increase, but was allowed to take the oats, as the department does not allow him anything for his horse.

I may say, however, that matters have been unsatisfactory at Montreal for some time past, and I have strongly recommended that a change be made and the office reorganized. This, I hope, will be brought about at no distant date.

I do not see any great discrepancies so far as Toronto is concerned, as the amounts have been as follows:—

1905	$ 84 50
1906	15 77
1907	164 97
1908	120 57
1909, to March 3	273 04

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

P.S.—From the latest returns I find that the revenue from samples sold at Montreal was $36.05 for the period April 1, 1908, to February 2, 1909.

Inspection of Staples: Montreal.

AUDIT OFFICE, OTTAWA, March 20, 1909.

SIR,—The returns from the grain inspector at Montreal to December 31 last amount to $1,745.80.

The last deposit from this inspector is dated December 9, and the total amount deposited is $1,688.50, leaving a balance of $57.30 not accounted for.

It calls for explanation why the fees accrued previous to December 31 are not yet deposited.

I have referred in separate letter to the fact that this inspector does not fully account for the samples.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, March 23, 1909.

SIR,—I beg to acknowledge the receipt of your letter of March 20; and in connection therewith I desire to state that the amounts which accrue for inspection are seldom paid immediately the inspection is made. It is not possible to do so. Accounts are rendered from time to time to the various parties, and when paid, the amounts are deposited as required by the regulations.

The amounts outstanding are not large, and the various items that go to make it up are very small.

Inclosed you will find a correct statement which covers the period to which you refer.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

AUDIT OFFICE, OTTAWA, March 24, 1909.

SIR,—I have received your letter of the 23rd, inclosing statement showing arrears due of $54.75, on account of fees accrued to December 31.

In this statement credit is taken for a deposit of $38.60 on February 2, 1909, which has not come to account.

Of the arrears due $30 is composed of special monthly returns. It seems singular that none of the fees accrued each month commencing with April, 1908, have yet been paid.

What about the inspections since December?

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

Inspection of Staples: Toronto.

AUDIT OFFICE, OTTAWA, March 17, 1909.

SIR,—I wrote on August 28, 1908, pointing out that the inspector at Toronto was $234.98 in arrears on the accounts of 1907-8. I have had no reply to this letter.

The inspections made at Toronto up to December 31 last, amount to $2,709.22, and the total deposits including the deposit made on January 5, to $2,309.19.

Adding the arrears of 1907-8 to the shortage on the current year makes a total of $635.01 that the inspector was in arrears on January 5 last.

The Treasury Board regulations require that a daily deposit shall be made if the receipts amount to $25, otherwise whenever that amount is on hand. If there is any reason why this regulation cannot be observed, I would be pleased to know it.

This inspector should be required to furnish a monthly summary showing the receipts on one side and the deposits on the other.

Your early attention is requested.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

Dept. of Trade and Commerce, Ottawa, March 25, 1909.

Sir,—Before the receipt of your letter of March 17, I had written to our inspector at Toronto for an explanation in connection with his deposit; and before hearing from him your communication of the 17th reached me, so I sent him a copy of it. I inclose you copy of reply just received from Mr. Enos M. Campbell.

I may say that this letter appears to be satisfactory. We must allow some latitude in matters of this kind. Could I have my own way I would insist upon having cash paid down before the certificate of inspection was delivered; but such would not be possible, and would very much hamper the trade. I am taking the question up with the inspector, however, suggesting that we might make an arbitrary ruling to refuse inspection to parties whose accounts were over thirty days due; but in the case of the railways difficulties might be encountered.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

Office of Grain Inspector,

Toronto, March 22, 1909.

Mr. F. C. T. O'Hara,
Deputy Minister of Trade and Commerce,
Ottawa.

Dear Sir,—I have your letters of the 17th and 20th, with copies of the Auditor General's letters inclosed. With regard to the balance due for the year 1906-7, see my letter to your office of May 29, 1907, in which I state that I had an account against J. T. Taylor of this city for $209.17, wholly made up of charges for export certificates for Manitoba grain, which I had not been able to collect, and expressing doubt of ever being able to collect owing to their lack of ability, their dishonesty and the fact that the Grain Commission, when sitting here, had expressed an opinion that eastern inspectors had no right to touch western certificate even to issuing an export certificate in exchange for the Manitoba local ones. Your office referred me to Mr. Craig. I wrote him and he did not give me a decided answer as to whether I should hold these people up by refusing them further inspection. However, I tried them easy and they told me and in view of the commissioners report I had no right to charge or to issue the certificates, and that they should get back some $60 which they had paid on account. The balance of the $234.98 is made up of little accounts against the Grand Trunk, all three of its offices at York, here in the city, and at the Bridge. They let the cars slip past them without charging the fees forward. It has been a surgical operation getting it out of them, but I have it all now but about $2, which I think I can get now. I will send a draft to-morrow for all but the $209.17.

I thought I had written you about the matter fully, but I cannot see a copy of the letter. See my letter dated July 21, 1908, in which I inclose a draft, $10.54 of which was to be applied on account of inspection 1907-8, which closed the account for that year. The Auditor General seems to be under the impression that the moment we inspect a car we get the cash, and that these large amounts he names must be in my hands.

Take the time he refers to, January 5, 1909. On that date you had all the weekly returns of December, 1908, in your hands, but I had very little of the cash of that month collected and some of the month before, for instance, Melady & Co., on January 5 owed $140 which was not paid till February 16. The railways at the Bridge about $100, paid late in January; these accounts alone, with the old balance, would be $474.98, the balance of what he claims would be made up by the other uncollected accounts. We issue our accounts monthly. It takes us two or three days after the end of the month to make out and send the accounts. Some will check promptly and at our second call pay the account, say about the 8th or 10th, and some few like Melady & Co., will take from one to two months.

With regard to the present year, I shall collect all outstanding accounts just as shortly as possible after the end of the month and close the year out. There is one account of $2 for inspecting a car of seed grain for J. T. Crow, of Chatham, that we will not get as he has left the country, and possibly one other, $1.80; with this exception all will be collectable.

Yours truly,

(Sgd.) ENOS. M. CAMPBELL.

AUDIT OFFICE, OTTAWA, September 11, 1909.

SIR,—At the time the account for 1907-8 was closed, there was an amount outstanding of $234.98 for fees for inspection of staples at Toronto.

During the year 1908-9, $93.62 came to account for these arrears, leaving a balance yet outstanding of $141.36. This calls for explanation.

In my letter of August 28, 1908, I called attention to the small amount accounted for samples sold at Montreal ($13.40) compared with the amount from same source at Toronto ($192.72).

During the year 1908-9, the receipts from this source were $47.72 from Montreal and $408.59 from Toronto, still a large disproportion.

The receipts from all sources in 1908-9 were $1,961.92 from Montreal, compared with $2,743.30 in previous year, while the receipts from Toronto increased from $1,633.22 in 1907-8, to $3,898.91 in 1908-9.

The returns furnished to this office do not furnish any means of determining that all the fees collected are accounted for. What means has your department of doing so?

Have you considered the advantages, if it is practicable, of using stamps for the collection of this revenue? If the inspectors were required to affix stamps covering the fees, on the certificates or receipts they issue, it would insure complete supervision of the revenue.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, OTTAWA, September 15, 1909.

SIR,—I beg to acknowledge receipt of your letter of September 11, with respect to the inspection of staples.

Of the $234.98 which accrued in 1906-7 only $22.38 was paid in on account of same. This leaves a balance of $212.60. Of this $209.17 is due by one firm for export certificates on Manitoba grain, which they refuse to pay for reasons set forth in a copy of Inspector Campbell's letter sent you with my communication of March 25,

1909. The other portion of the $93.62, viz., $71.24, was for 1907-8, and balanced accounts for that year.

You refer to the small amount of receipts from Montreal as compared with Toronto for 1908-9. This is accounted for by the larger number of cars and cargoes inspected in Toronto district, as follows:—

	Cars.	Cargoes.	Totals.
Toronto	4,722	160	4,882
Montreal	557	97	654

All the fees which accrue for which returns are made weekly and monthly, have to be accounted for, and final settlements are made as a rule by all companies at the close of the year. I am doing my utmost to insure more prompt payments of amounts accrued in future, and have written a strong letter to the chief inspector at Winnipeg to endeavour to bring this about throughout the whole grain inspection service of Canada.

With reference to your suggestion as to our adopting stamps for the collection of this revenue, I shall be very glad to give the matter further consideration and see if it could be brought about; but I am pretty firmly of the opinion that with the continually increasing production and the rapidity with which inspections have to be made and certificates issued, we would require perhaps a larger staff, and it might cause additional delay thus hampering the trade. I shall bear the matter in mind, however, and discuss it with some of our grain officials.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

Dept. of Trade and Commerce, Ottawa, September 17, 1909.

Sir,—With further reference to my letter of September 15, in connection with the difference between the revenue from samples sold at Montreal as compared with Toronto, I beg to state that the chief inspector at Montreal, in a communication addressed to me under date of September 16, states as follows:

'The chief reason for this disparity lies in the fact that the Toronto inspector gets a sample from every carload, say from each 1,000 bushels, whereas in Montreal, for the export grain, we only get a sample for about every 8,000 bushels. Since April 1, 1909, to date, all we have inspected for export is about 822,000 bushels, or a shade over 100 quarters, and as there is only about half a gallon for each 8,000, the samples would only total 50 gallons, or about 6 bushels; in addition to export we have only drawn samples from 56 cars, or about 3½ bushels, whereas in Toronto, samples from the same amount of grain, would total about 53 bushels. Our unit is, in most cases, 8,000 bushels, whereas Toronto's is 1,000. I may add, that in cases of merely sampling grain, the owner gets about half the sample drawn.'

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*
